Other Controls	NO	NO	YES	NO	NO	YES	NO	NO	YES
Chi-square	7.3(4)	9.8(7)	12.6(10)	2.0(2)	11.4(5)	11.9(8)	4.7(2)	9.3(5)	12.9(8)
N	154	151	151	80	80	80	74	71	71

Notes:

1. Dependent variable is “compete” and takes on a value of 1 if the participant opted to compete, and 0 otherwise.
2. Standard errors are in parentheses.
3. Estimates are partial derivatives computed at the sample means from Probit models.
4. Variables defined in Table I notes. “Male exp.” equals one if the experimenter was male, 0 otherwise. “Other controls” include all of the other variables defined in Table II.
