

THE ECONOMETRIC SOCIETY  
Asian Region

*Aide Mémoire*

January 17, 2024

## Preface

This *Aide Mémoire* contains a detailed description of the organization and procedures of the Econometric Society within the Asian Region. It complements the Rules and Procedures of the Econometric Society. It is maintained and regularly updated by Chair and Secretary of the Asian Regional Standing Committee in accordance with the policies and decisions of the Committee.

The initial LaTeX template used was imported from the European Aide Mémoire in 2016 by Atsushi Kajii in December 2020. Thereafter, this Aide Mémoire has been updated by Dilip Mookherjee and Changyong Zhang in August 2021 and additionally, in March 2022 and December 2022. Subsequently, it has been updated in August 2023 and December 2023.

# 1 Asian Regional Standing Committee

## 1.1 Responsibilities

**1.1.1** The Asian Regional Standing Committee (ARSC) is responsible for the organization of the activities of the Econometric Society (ES) within the Region *Asia*. It should undertake the consideration of any activities in the Region that promote interaction among those interested in the objectives of the Society, as they are stated in its Constitution.

**1.1.2** The Asian Regional Standing Committee is responsible for establishing regular and systematic procedures for the organization of the Asian Meeting of the Econometric Society (AMES). AMES is held annually except for those years in which there is a World Congress.

**1.1.3** The Asian Regional Standing Committee is responsible for coordinating all the other special activities in the region, such as Summer/Winter Schools, which are approved and funded by the Schools and Workshops Committee (See Section 3).

## 1.2 Membership

The members of the Asian Regional Standing Committee of the Econometric Society are the following:

Voting members:

- *Chair*: The first of the following list who resides in Asia:
  - The President of the Society
  - The First Vice-President
  - The Second Vice-President
  - The Past President

If none of these resides in the Region, the President will appoint an Asian member of the Council of the Society to act as Chair, initially for one year. [The Chair may be renewed provided that the previously-stated conditions are satisfied.](#)

- *Ex Officio Members*: Any other Officer of the Society on the above list who resides in Asia.
- *Asian Members* of the Council of the Society.
- *Elected Members* chosen by the members of the Society in the Region. Specifically, at least two voting members are elected by the members of the Society in the Region as stipulated in the Rules and Procedures of the Society. The Asian Regional Standing Committee determines the total number of the elected members and respective ballot slots in any given year. Elected members serve a non-renewable term of four years, from 1st January of the first year to 31st December of the last year. Two years off the Regional Standing Committee must elapse before a voting member may serve again in that capacity.

Non-voting members:

- *Secretary*: Appointed by ARSC for a term of *three* years. The role of the Secretary is described in Section 1.3. The appointment can be renewed with an approval of ARSC.

- *Representatives* of ARSC's activities such as chairs of the subregional committees (See Appendix B) and chairs of the program/local organizing committees of recent or future meetings (See Appendix C), who are appointed by Chair of ARSC.

In addition,

- the President (if not residing in the Region),
- the Executive Vice-President,
- the Executive Director of the Society, and
- the Editor of *Econometrica*

may attend the meetings of the Asian Regional Standing Committee, which is held at the primary AMES.

See Appendix A for a complete list of members of the Asian Regional Standing Committee of the Econometric Society.

### 1.3 Procedures

**1.3.1** The *Chair* of the Asian Regional Standing Committee is responsible for arranging meetings of the Committee and communicating the decisions of the Committee to the Executive Vice President and Executive Director of the Society. The Committee meets annually. Its meeting is held at the same site and/or time as the primary AMES in years when the World Congress is not held and at the World Congress in other years. The Chair decides the agenda of AMES meetings in consultation with the Secretary. The Chair and Secretary jointly maintain correspondence between the members of the Committee, the Executive Vice-President of the Society, the Executive Director of the Society, and the chairs of the Subregional Committees.

If the President of the Society is not present, the Chair of the Asian Regional Standing Committee chairs the annual committee meeting held during the primary AMES or the World Congress.

**1.3.2** Besides collaborating with the Chair in dealing with all issues facing the Asian Regional Standing Committee, the Secretary is responsible for (a) scheduling meetings of the Asian Regional Standing Committee, sending invitations, preparing supporting memoranda, taking minutes at the meetings, and periodically updating the Aide Mémoire to reflect recent decisions made by the ARSC; (b) liaising with the subregional committees, chairs of the program committee and the local organizing committee with regard to their arrangement for AMES, and other activities in the region; (c) responding to queries about holding of future events and related information from potential organizers; (d) ensuring that the main organizers of each event (conference, school) in the Asian region submit a report at the end of each conference and remit the required proportion of the surplus to the ES; (e) communicating/coordinating financial decisions made by ARSC to/with the Executive Vice-President of the Society, obtaining half-yearly statements of the balance in the ARSC account and presenting these to the Chair; and (f) assisting the Chair in conducting elections to ARSC positions and coordinating Fellow nominations to be submitted by the ARSC.

**1.3.3** Currently the Asian region is divided into three subregions for the sole purpose of organising events in such a vast region: Central/South/West Asia, China, and East/Southeast Asia. A subregional committee for each subregion is appointed by the Chair and approved by members of the Asian Regional Standing Committee. See Appendix B for the list of countries & territories in each subregion and the subregional committees. Each subregional committee will take an active

role in soliciting and selecting proposals for hosting AMES in its respective region from 2022 onwards, and will propose these to the Chair. The Chair will coordinate these proposals after consulting the Executive Vice President, and present them to the ARSC, which will decide on where and when future meetings will be held. These procedures are described in further detail below. In consultation with the chairs of the Subregional Committees, the Chair will also appoint the Program Chairs and Local Organizing Chairs of each AMES.

**1.3.4** The *Program Chairs* of AMES are responsible for organizing the Plenary and Parallel Invited Sessions and the Contributed Sessions of the Meeting. They provide a written proposal to the Asian Regional Standing Committee which summarizes their arrangements, and a statement whether they are willing to host the primary AMES. See Section 2 for more details.

**1.3.5** The *Local Organizing Chairs* of AMES are responsible for arranging the physical facilities, accommodation, meals, and social events in the case of a live conference. They collaborate with Program Chairs to arrange the meeting website, which contains registration and program information. The local website should be linked to the Future Meetings section of the Society’s website. The Local Organizing Chairs provide a written report about the local arrangements to the Asian Regional Standing Committee along with statement of accounts, within six months after the conclusion of the conference. See Section 2 for more details.

## 1.4 Regional Finance

ARSC holds the “Asia Vanguard Fund”, which is the discretionary fund for the Asian regional activities. This account is maintained by the central office of the Econometric Society on behalf of the Asian region, and the account balance can be ascertained by either the ARSC Chair or Secretary, from either the Executive Vice President or Executive Director of the Society.

The ARSC fund is currently held in three or four different funds to achieve a balance of income growth with diversification, mimicking the portfolio of the general funds of the Econometric Society based on the recommendations of the Investment Committee of the Society. The allocation (as of December 23, 2020) was: 2% in Vanguard Federal Money Market Fund, 18% in Vanguard Short-Term Treasury Fund Admiral Shares (Short-term fixed income, VFIRX), 30% in Vanguard Total Bond Market Index Fund Admiral Shares (VBTLX), and 50% in Vanguard Total Stock Market Index Fund Admiral Shares (VTSAX). The desired portfolio composition will be reviewed periodically by the ARSC chair in consultation with the Executive Vice President. The ARSC chair will inform and seek approval of ARSC members in the event of any major changes in the allocation. The Executive Vice President will routinely rebalance the actual portfolio at the end of every year to the desired composition.

The ARSC Fund is used as a buffer to mitigate uncertainty about the income of regional meetings (e.g., fees from participants).

In 2019, \$40,000 was added to the fund, with the understanding that it will be used to support the Chow lectures (see Section 2.2).

Every year the Econometric Society provides ARSC a fund to support students and young scholars. ARSC decides how to allocate the fund across various events in the Asian region. Normally the fund is divided equally between the different meetings and other events, and the local organizing committees of these events are delegated authority over how to spend the fund. It could be in the form of, for example, financial aid scholarships for PhD students and young scholars to apply to cover registration fee and/or (partial) travel cost, and best paper awards. Starting from

2023, the local organizers of the Asian meetings and other events are encouraged to make a pre-claim at the time of submitting a proposal for the amount that they expect to use for supporting young scholars. The fund would first be allocated accordingly up to the amount provided by the society, each entitled to the minimum of the pre-claim amount and \$2,000. If the total is less than the amount provided by the society, the resulting surplus would be split equally between the ones that pre-claim more than \$2,000, up to the pre-claimed amount. If the total goes beyond the amount provided by the society, the portion above the amount will be covered by the ARSC fund.

From 2023 onwards, organizers of schools and workshops should apply directly to the Schools and Workshops Standing Committee of the Society for funding.

To receive the funds in a lump sum payment, shortly before the fund will be used, the local organizing committee is asked to send an invoice, notating “Grant for Young Economist program”, to the Executive Director of the ES for the requested amount. The invoice can be in any form but needs to include the amount, payee, purpose, and full banking information including the bank address and SWIFT code to process the wire.

To ensure the long-term sustainability of the ARSC fund, from May 2023 onwards the organizing committee of each Asian meeting is kindly required to add \$10 to the registration fee as a contribution from each participant to the ARSC fund.

## 2 Asian Meeting of Econometric Society

The Asian Meeting of the Econometric Society (AMES) is the official regional meeting. The following sub-sections describe AMES arrangements before 2022. From 2022 onwards, the organization of AMES has changed significantly, as described in Section 2.5.

### 2.1 Timing and Format

In the past AMES has been usually held in early August,<sup>1</sup> or June, for three days.<sup>2</sup> Detailed information about the structure of past meetings is available on the Society’s website, which provides a list of previous meetings with links to their local websites, as well as in Appendix C.

The Asian Regional Standing Committee selects the dates and locations of AMES, and appoints the Program and Local Organizing Chairs. These decisions should customarily be taken at least one year and preferably two years in advance (at the primary AMES in that year) so that those responsible for future meetings have sufficient time to make the necessary arrangements.

The members of the Asian Council and the ES Asian Regional Standing Committee are encouraged to contact colleagues who might be interested in acting as local organizer of a future AMES. Proposals to host a meeting should specify the candidates for the Program and Local Organizing Chairs with their vita, the physical facilities available for sessions such as the maximum number of parallel sessions for contributed papers, accommodation and meal arrangements including lunch, and social events, as well as an estimated budget that includes total costs and revenues. They should be submitted to the Secretary (the chair of ARSC, when vacant), who can provide further information.

AMES should be self-financing, as the Society does not underwrite any potential losses under any circumstances. Revenue sources are typically through fundraising, sponsorships, pre-authorized Society funds, publisher exhibits, and registration fees, whose level must be approved by the Regional Standing Committee.

The *Local Organizing Chair(s)* is responsible for arranging the physical facilities, accommodation, meals, and social events. He/she collaborates with the Program Chair(s) to arrange the meeting website, which should contain registration and Program information. The local website should be linked to the Future Meetings section of the Society’s website. The Chair of the current year provides a written *report* about the local arrangements to the Asian Regional Standing Committee as well as the budget of the meeting within six months after the meeting is completed. Additional information from the central office can be found on the Program and Local Organizing Chairs webpage.

### 2.2 Invited Sessions

The Program Chairs are responsible for inviting the speakers and chairs of the Plenary and Parallel Invited Sessions. They also decide about whether to invite discussants for the Parallel Invited Sessions.

**Remark** To help have a more manageable budget as well as to be in line with the practice in other regions, the local organizing committee is not encouraged to offer honoraria to invited speakers.

---

<sup>1</sup>August is not preferable as far as the climate in Asia is concerned. However, Japanese schools’ summer break starts in the first or second week of August, and Singapore schools’ semester begin in mid August. So early August is the only period where the entire region is in summer recess.

<sup>2</sup>These three days do not include special lectures.

## Presidential Address

The Presidential Address, which is delivered at the primary Asian meeting of the year, usually takes place on the second day of the conference.<sup>3</sup> The President of the Society is invited for the lecture by the Program Chairs. The Presidential Address is a plenary ‘A-session’, i.e., there are no other sessions or events at the same time. There are no discussants of the Presidential Address and it is customary that the Chair of the Asian Regional Standing Committee chairs the session. The travel cost of the president will be covered by the society, but the program committee is encouraged to make efforts to raise its own funding to cover it. No honorarium can be offered to the President for delivering the Presidential address by the program committee.

## Plenary Sessions

There should be one or two plenary A-sessions in addition to the Presidential Address.

## Parallel Invited Sessions

In addition to the plenary A-sessions, there are usually three B-sessions with invited speakers. Each B-session consists of two or three parallel sessions. The session titles are chosen by the respective Program Chair.

## Named Lectures

**Jacob Marschak Lecture** The Society’s Marschak Fund supports a lecture, the location of which rotates among regional meetings held outside North America and Europe. It will typically be located in the Asian region every two or three years. (Until 2019, the central office paid the Asian region for one Marschak-like lecture in those years in which there is no official Marschak lecture in Asia. See two lectures below for the new arrangement after 2019.) The fund supports up to \$4,000 for every Marschak lecture. It should be scheduled in a plenary A-session.

**Gregory Chow Lecture** In 2019, \$40,000 was raised in order to fund a special lecture. This amount has been transferred to the ARSC Fund for this purpose. The fund supports up to \$4,000 for every Chow lecture, to mainly cover the travel cost, accommodation, and registration fee of the speaker. Currently (for the years 2019-2024), ARSC has decided to call it the Gregory Chow lecture. The name of the lecture after 2024 can be reviewed by the ARSC. The inauguration of the Chow lecture was announced by President Stephen Morris and the first Chow lecture was given by Thomas J. Sargent on June 15, 2019 at Xiamen University.

**Marschak-Like Lecture** From 2022 onwards, the Society funds an additional Marschak or Marschak-like lecture every year, on par with all other regions. The name of this Lecture is suggested by the program and local organizing committees of the AMES that the lecture is allocated to and is approved by ARSC. At its 2021 meeting, ARSC tentatively agreed to call this the Michio Morishima lecture as the first Marschak-like lecture to be given at the 2022 AMES. Later, upon the suggestion by the program and local organizing committees of the 2022 AMES in East and Southern East Asia, it was decided to call it the Uzawa-Negishi Lecture, which was given by Nobuhiro Kiyotaki on August 9, 2022 at the University of Tokyo.

---

<sup>3</sup>The president does not have to give the address in the year s/he is the president. It implies that s/he can do so one or two years earlier when s/he is a vice president, or one year later when s/he is the ex president. Therefore, the Presidential Address might be given by the past president or the first vice president.

## Special Lecture Series

Starting in 2026, each year other than World Congress years, the Society organizes three additional series of lectures, namely the Lewis-Ostrom Lectures in Applied Economics, the Lucas-Modigliani Lectures in Macroeconomics and Finance, and the Blackwell-Robinson Omnibus Lectures, to the existing Griliches Lectures in Applied Economics, the Hotelling Lectures in Economic Theory, and the Sargan Lectures in Econometrics. The lectures present an overview of a topic in which the lecturers have done significant research. They are typically above PhD level, but not necessarily at the research frontier. Attendance is open to all members of the Society. The lecturers are encouraged to submit their lectures to the Econometric Society Monograph Series.

The location of the lectures rotates among the regional meetings of the six regions of the society. AMES will therefore host one of the six lectures in every year excluding the years of the World Congress and will be provided by the Society up to \$4000 toward the costs of its lecture series. AMES 2016 in Kyoto hosted the Griliches lectures, AMES 2018 in Seoul hosted the Hotelling lectures, AMES 2021 in Miri hosted the Sargan lectures, and AMES 2023 in Singapore hosted the Griliches lectures.

The lecturers are proposed by a Lecture Series Committee appointed by the President. The Committee is chaired by a former President and includes two additional members of the Society. Their appointments, which cover three selection processes, are staggered to provide some continuity. In addition, the two editors of the Monograph Series are ex-officio members but they do not have voting rights. In the spring of year  $t$ , the Lecture Series Committee will propose the lecturers for the year  $t + 2$ .

The lectures normally take place right before or after the primary AMES in three sessions of one-and-a-half or two hours each<sup>4</sup>.

## 2.3 Contributed Sessions

**2.3.1** The Program Chairs handle all matters related to the submissions of papers contributed for presentation at AMES. The sole criterion for acceptance of a paper shall be its scientific merit. The Program Chair(s) appoint the Program Committee and arrange the program as they see fit, subject to the constraints on the number of days and sessions.

**2.3.2** The number of parallel sessions in the Contributed Sessions should remain within the range of 6-20. Each session should contain 3-4 presentations.

**2.3.3** Each author may submit only one paper to AMES. The corresponding author of any paper submitted to AMES must be a member at the time the paper is submitted, and the same applies to any co-author who replaces the original submitter as corresponding author or presenter. These membership requirements must be prominently displayed in the Call for Papers. The Program Chairs are assisted by the Society's Executive Director in checking the membership status of submissions. Preferably, the submission management software checks directly with the Society's membership database though.

**2.3.4** The processing of papers contributed to AMES is handled electronically through Conference Maker or an alternative software tool. The Program Chairs are assisted by the Society's

---

<sup>4</sup>The society also respects the preferences as well as the technical constraints of the local organizers and may approve a different format, e.g., lectures held on the same days as the contributed papers sessions. For instance, the lectures in AMES 2018 were scheduled within the three day conference.

Executive Director to set up Conference Maker or the alternative software tool. See further details in Section 2.5.2.

**2.3.5** The suggested timetable for submissions is as follows: (a) Complete submissions must be received by approximately six months before the meeting; (b) Decisions on submissions are made approximately four months before the meeting; (c) Accepted papers are only included in the final program if presenting authors have registered by approximately three months before the meeting.

## **2.4 Other Events**

### **Meeting of the Asian Regional Standing Committee**

The Meeting of the Asian Regional Standing Committee is organized by the Chair with the assistance of the Secretary.

### **Lunch/Dinner for Program Committee Members**

Usually for a live meeting the Program Chairs arrange a lunch or dinner for the members of the Program Committee in coordination with the Local Organizing Chair.

### **Social Events**

In case of a live meeting, there should be an organized dinner for all the participants, usually on the second day. The cost of dinner should be included in the conference fee. Other social events, e.g., excursion to sightseeing spots, might be organized, but it should not be part of the conference budget and its cost should be completely born by the participants to the specific events.

## **2.5 Changes in Organization from 2022 Onwards**

Changes in the organization of AMES and Operating Guidelines from 2022 onwards include creation of three subregions within Asia and integration of the China Meeting of the Econometric Society (CMES) which used to be organized separately from AMES since 2013. See Appendix D for more information about the China Meetings.

### **2.5.1 Overall Organization and Coordination**

Currently the Asian region is divided into three subregions for the sole purpose of organising events in such a vast region: (a) Central, South and West Asia; (b) China; (c) East and Southeast Asia. A subregional committee for each subregion will be set up with three-year terms by the ARSC. The chair of each subregional committee will be invited to be a non-voting member of the ARSC and attend ARSC meetings pertaining to the organization of AMES events in the respective region. Each subregional committee will actively solicit and assist with preparation of proposals from local organizers to hold meetings in their respective subregions.

The ARSC will receive proposals from each of the subregional committees at least one year in advance and preferably two years earlier under normal circumstances, e.g., once the COVID-19 crisis has eased. *The proposal should declare whether they are prepared to host the main meeting if selected by the ARSC.*

Conference proposals should give attention to feasibility and desirability of virtual and especially hybrid conferences, which may combine live events with opportunities for online participation to promote scale and regional diversity of the meetings. For example, plenary events could be

live and streamed to remote participants, while contributed sessions could combine live and online presentations.

In consultation with the chairs of the subregional committees, and after checking with the Executive Vice-President regarding possible conflicts between meetings outside Asia and other events of the ES, the ARSC will decide the following: dates and venues for the following year, which one will be the primary Asian meeting, and allocation of special lectures as well as financial support for students or young scholars to attend these meetings.

As per the rules approved, the following considerations will apply in the ARSC decisions:

(a) Rotation of the primary Asian meeting across different subregions in successive years; conditional on submission of feasible proposals, the primary meeting will be held at least once every three years in each subregion.

(b) Even if the primary meeting in any year is held outside region X, ARSC will approve an AMES in subregion X named as ‘the Asian Meeting of the Econometric Society in X’ every year (except for the year of the Econometric Society World Congress), provided that an institution in that subregion is willing to host it.

(c) Each subregion is assured that if at least one AMES is held in it in any given year, it will be allocated at least one special Lecture. See Section 2.2 for a description of various special Lectures.

### **2.5.2 Operating Guidelines for a Specific Asian Meeting**

The organization of each meeting should be consistent with standing rules of the Econometric Society in all respects. Specifically, meetings will be open to all members of the Econometric Society and all participants must be ES members. All scientific sessions, plenary and special lectures will be in English. Only sessions on specific economic policy issues can feature presentations in a different language, with facilities for simultaneous translation into English.

The organization of each meeting should also make an effort to promote diversity and inclusion with respect to representation of women, younger scholars, and under-represented countries & territories with few members and few past conferences hosted. This matters for setting of registration fees (e.g., discounts for students), appointment of program and local organizing committees, selection of invited speakers, organization of sessions and mentoring events.

Within any region, the subregional committee will work with local organizers to set up a program committee and a local organizing committee.

The program committee will be responsible for organizing Plenary and Parallel Invited Sessions and Contributed Sessions. In the case of a live meeting, the local organizing committee will be responsible for arranging physical facilities, accommodation, meals, and social events. The two committees can jointly decide on number and selection of other invited participants, and extent to which their travel or local expenses will be covered.

The local organizing committee will prepare and manage the budget for the conference. This will include fundraising targets, registration fees, and various expenses. They will set and collect registration fees from participants, which will be used to cover the conference costs. They can also decide on whether they will partially pay for some members of the program committee or other distinguished researchers to participate in the meeting, after corresponding to the ARSC on any fee waiver decision.

To ensure the long-term sustainability of the ARSC fund, from May 2023 onwards the organizing committee of each Asian meeting is kindly required to add \$10 to the registration fee as a contribution from each participant to the ARSC fund.

Decisions concerning all of the above aspects are delegated to the program and local organizing committees, subject to the rules mentioned. Plans for these can be summarized in the proposal submitted to the ARSC for prior approval, e.g., location and dates, members of the program

committee and local organizing committee, anticipated scale (i.e., approximate number of participants), budgetary estimates for revenues and expenditures, and any specific plans for topics, events, or efforts to promote diversity and inclusiveness.

As per Rule 6.2, in the event of any surplus remaining after the conclusion of the conference, it will be shared with the EC and the ARSC in the percentages of, starting from 2023, 10% to the central office, 40% to the ARSC, and 50% to the local organizing committee as an appreciation to the organizers for their time and efforts.

Within six months from completion of the meeting, the local organizing committee and program committee chairs will provide a detailed written report and final accounts to the ARSC and Executive Vice President about the local arrangements, including the final accounts with itemized revenues and expenses, and the program covering plenary, invited, and contributed sessions, as well as the selection process used.

Local organizers can use either Conference Maker or Oxford Abstracts for registration, paper submissions, etc. The central office of the Society will help by issuing Call for Proposals to organize AMES, Call for Papers, and arranging access to Conference Maker or Oxford Abstracts. In the event that local organizers prefer some alternative software, they will need to verify ES membership status of everyone submitting papers for the conference. Here are specific instructions provided to verify membership: please click on the following link and then cut and paste all names and/or email addresses of registered participants onto the displayed page. You must enter member email addresses, or first and last names separated by a comma (e.g. Lyn,Hogan), one per line. The function will allow regions to search by groups or by individual by first and last name or email address. Membership status will appear as either active if current, blank if not current, or “not found”. If there are multiple matches, all will be listed. To maintain the security of our web site and membership, this link is not available on our web site but provided separately to conference organizers, so please save it for future use.

For assistance with issuing Call for Papers, use of Conference Maker or the membership verification process, organizers can contact the Executive Director of the ES at [generalmanager@econometricsociety.org](mailto:generalmanager@econometricsociety.org).

## 3 ES Schools

Several regions of the Society are organizing workshops or schools, with a non-exclusive emphasis on graduate students and younger scholars.

### 3.1 Background History

In-koo Cho submitted a proposal to ES Secretary Hyun Shin in 2012, and it was discussed at the meeting of the Executive Committee in Malaga during the European summer meeting in 2012. The minutes of that meeting read:

In 2012, Shin reported on a proposal by In-Koo Cho to organize a summer school in Seoul under the Econometric Society name. He added that Cho has secured funding, but had asked for administrative support and possible top-up financial support for travel grants for participants. Holmström asked for clarification on the relationship between the proposal and the activities of the Far East and South and South East Asian standing committees. Shin stated that the summer school initiative should be closely coordinated with the activities overseen by the regional standing committees. Acemoglu noted that the initiative should be self-funded from within the region. It was AGREED to give permission to the Seoul summer school subject to consultation with the regional standing committees, and on the understanding that no direct financial support would be provided from the center.

The first school was then organized by In Koo Cho and Ariel Rubinstein, and it was held in August 6-10, 2013, at Hanyang University campus in Seoul, Korea. See appendix E for the locations and organizers of ES Schools held in Asia.

In order to encourage such activities while maintaining some guidance, the Executive Committee approved the following guidelines in January 2018:

1. To use the name of the Econometric Society, a school needs the approval of the Executive Committee. When granted, this approval will be for a period of not more than three years. It may be renewed following submission of a report on past summer schools and a fresh application.
2. The Executive Committee will appoint a committee to review all applications, consult with the Regional Standing Committee in the region where the school is to be held, and decide whether to recommend approval to the Executive Committee.
3. These schools or conferences should be accessible to members from all regions and should make an effort to encourage participation from all regions. For that reason, all instruction and presentations should be in English.
4. The proposal should specify the expected level of the student participants, and the mechanism for recruiting and selecting them.
5. The organizers of these events will be expected to coordinate with the relevant Regional Standing Committee to avoid schedule conflicts, and to send brief annual reports both to that Regional Standing Committee and to the Executive Committee.
6. The Executive Committee will not provide funding, but the regions may choose to use some of their resources to, e.g., subsidize travel costs for students and younger faculty.

## 3.2 Organization from 2022 Onwards

A new standing committee for approval and guidelines for Summer/Winter Schools has been set up in 2020. The mission of this Schools and Workshops Committee (SWC) is to guide, approve and evaluate Summer/Winter Schools, Workshops and related activities for young scholars sponsored by the Society, and to allocate funds to them in accordance to the guidelines approved by the Executive Committee. It consists of a chair and two additional members representing different regions and fields appointed by the Executive Committee for staggered three-year terms. The members were Andy McLennan, Nour Meddahi (2020-2021), Dilip Mookherjee (Chair), and Whitney Newey when the committee was set up in 2020.

### Goals and Guidelines

The aim of the activities for young scholars sponsored by the Society is to help build research capacity in areas defined geographically or by subject where participants have limited exposure to methods, outstanding teachers and researchers. They typically feature lectures providing an overview of recent developments at the research frontier or training in skills for high quality research, as well as opportunities for participants to receive feedback and mentoring advice, and to interact with one another, including contributed sessions by young scholars.

In some cases, they are held right before or after regional meetings of the Econometric Society, and include sessions with papers contributed by young scholars.

### Organization

The schools are organized by local hosts, who are responsible for raising necessary funds, selecting dates, location, topics and lecturers, inviting lecturers, preparing an announcement which specify topics, application requirements and deadlines, participation cost/financial aid and criteria for selection; screening applications and selecting participants, and all other local arrangements. The role of the ES is limited to (i) approving proposals for new schools and evaluating applications for renewal after every four years of operation, (ii) advertising the school through the Society's web site and blast email system, (iii) guiding local organizers with set up of Conference Maker submission software for receiving participant applications and registering participants.

All applicants to Schools and related activities for young scholars must be members of the Society at the time of application. If local organizers use conference software other than Conference Maker, they are responsible for checking ES membership status of all participants through the Society's new membership verification process. To verify membership, please click on this link <https://www.econometricsociety.org/member-verification>, and cut and paste all names and/or e-mail addresses of registered participants onto the displayed page. The function will allow regions to search in groups or individually by first and last name, partial name, and/or email address. Membership status will appear as either active if current, blank if not current, or "not found". If there are multiple matches, all will be listed.

[The Executive Committee of the ES provides a fund through the SWC to financially support schools. The concerned regional standing committees can additionally decide on allocation of their resources to subsidize travel costs for students and younger faculty.](#)

Schools can be organized either on a one-time basis or for multiple years. Multi-year proposals are encouraged, allowing schools and local organizers to learn from experience, gain reputation and provide training to larger numbers of participants. The organizers may rotate locations in different years, but should take responsibility for coordination across different locations. The organizers can seek help and advice from the SWC and concerned RSCs. The Standing Committee will consult

the relevant RSCs for their advice in connection with approval, organization and evaluation of each school. RSCs will be asked to approve dates of each school in order to avoid conflicts with other conferences, workshops or ES activities in the concerned region.

The Schools should be open to participants from all regions. The ES will be willing to collaborate with other sponsors who play an important role in funding or organization. The language of instruction and all presentations will be in English. Analogous to rules applying to regional meetings of the Econometric Society, within six months of meeting completion, the associated regional standing committee and the school organizers shall submit a financial report to the Society's EVP along with 10% of any positive surplus in the School budget. At the same time, if the school has utilized the Society's contract with Conference Maker to handle registration and fee collection, a 4.5% credit card processing fee will be applied to cover the Society's credit card transaction costs and a fee of \$500 will be deducted from the registration fees to be paid to Conference Maker for handling registration.

### **Initiation/Approval of New Schools**

Proposals to set up new schools should be prepared by local organizers and submitted to the SWC for approval. Assistance and advice for preparing proposals to potential organizers can be provided by the SWC and RSC chairs. RSCs can help coordinate proposals submitted from their respective regions. In under-represented areas the SWC will work with RSCs to search for potential hosts and encourage them to initiate required schools (see further detail below).

Proposals should be submitted to the SWC at least twelve months in advance of the proposed date of the first school. The SWC will handle proposals on a rolling basis. Following consultations with the chair of the RSCs, it will make approval decisions within one month.

The SWC will coordinate coverage, names and dates of different schools. Names should include the Econometric Society, such as 'Econometric Society Summer School on in', or '(Region X) Summer School in , sponsored by the Econometric Society and (joint sponsors)—'. The region or topic concerned should also feature in the school name. The SWC will strive to avoid conflict of dates with other conferences or schools, or excessive overlap of topics with other schools in neighboring locations.

Proposals should explain how the school would address the skill shortage or otherwise further the goals of the Econometric Society and the plan for its organization, including proposed location, dates and topics, and plans for (a) budgeted expenditures and fund-raising including sponsorships and registration fees, (b) lecturers to be invited, (c) approximate number of participants, procedures for recruitment and screening, participant fees and financial aid, (d) division of school hours into lectures and workshops, (e) opportunities for participants to receive individualized feedback on their research or mentoring advice from instructors, and (f) participant feedback on courses, instructors and school organization.

Proposals will be evaluated on the basis of assessed feasibility and extent to which the primary goal of research capacity building is likely to be furthered. The SWC is not wedded to any 'one size fits all' approach and is willing to entertain variations from the detailed guidelines listed here depending on local need and circumstances on a case-by-case basis.

### **Reporting Requirements and Renewals**

Organizers should send the SWC a report on functioning of the school after three years of operation following the previous approval granted. The report should include details for the past three years concerning: (a) lecture topics, instructors, teaching materials (eg links to curriculum, reading lists, presentation slides), (b) number of participants, criteria for selection, geographic range of

applications and participants, costs charged/financial aid provided for participants, (c) student presentations/instructor feedback opportunities, student evaluations if available.

Existing schools seeking renewal beyond 2020 (with the exception of those already approved for 2021) should submit a report and renewal application in 2020 at least twelve months prior to holding the next school. The renewal application should explain any changes envisaged for organization, scale or funding compared to past functioning. They will receive a decision within one month from the SWC after consultation with relevant RSCs. Going forward, approval will be granted for four years at a time, with reports and renewal applications due at the end of three years.

### **Initiatives for New Schools in Under-represented Areas**

The SWC will work with RSCs of under-represented areas such as Africa to promote new schools. Primary responsibility for developing such a strategy is delegated to the concerned RSCs. The SWC will receive input from the RSCs regarding possible assistance that could be provided by the Econometric Society towards this end, and based on these make suitable recommendations to the Executive Committee. Strategies may include holding online schools, workshops or conferences; special funding for financial aid or school subsidies; helping organize events in the region concerned which attract distinguished speakers.

## Appendices

### A Composition of Asian Regional Standing Committee

#### A.1 Current Members

##### Voting Members

Chen, Yi-Chun	National University of Singapore	Elected	2021-2024
Fang, Hanming	ShanghaiTech University & University of Pennsylvania	Elected	2021-2024
		Council	2023-2026
Fujiwara-Greve, Takako	Keio University	Elected	2023-2026
Hayashi, Fumio	National Graduate Institute for Policy Studies	Elected	2023-2026
Kitamura, Yuichi	Yale University	Council	2023-2026
Kiyotaki, Nobuhiro	Princeton University	At-large/Council & Chair	2023-2026
Newton, Jonathan	Kyoto University	Elected	2023-2026
Ray, Debraj	New York University	Council	2023-2026
Somanathan, Rohini	University of Delhi	Council	2023-2026
Takahashi, Satoru	University of Tokyo	Elected	2022-2025
		Council	2023-2026
Whang, Yoon-Jae	Seoul National University	Elected	2021-2024
Yang, Shu-Chun	Academia Sinica	Elected	2022-2025

##### Non-Voting Members

Banerjee, Subrato	Indian Institute of Technology Bombay	Local Chair of AMES 2023 in C/S/W Asia	2022-2024
Feng, Qu	Nanyang Technological University	Program Co-Chair of AMES 2023 in E/SE Asia	2022-2024
Lu, Yi	Tsinghua University	Local Co-Chair of AMES 2023 in China	2022-2024
Riyanto, Yohanes Eko	Nanyang Technological University	Program Co-Chair of AMES 2023 in E/SE Asia	2022-2024
Sen, Arunava	Indian Statistical Institute	Chair of C/S/W Asia Subregional Committee	2024-2027
Shimotsu, Katsumi	University of Tokyo	Chair of E/SE Asia Subregional Committee	2024-2027
Wu, Binzhen	Tsinghua University	Local Co-Chair of AMES 2023 in China	2022-2024
Zhang, Changyong	Curtin University Malaysia	Secretary	2021-2024

## A.2 Past Members

### Voting Members

Che, Yeon-Koo	Columbia University	Elected	2016-2019
Chen, Been-Lon	Academia Sinica	Elected	2019-2022

2024	Indian Institute of Technology Delhi	12-14/01			Chen, Songnian (Co-Chair)	Fang, Hongsheng
					Fang, Hanming (Co-Chair)	Gong, Binlei
					Song, Zheng (Michael) (Co-Chair)	Ye, Jianliang
					Zhang, Junsen	
2024	Ho Chi Minh University of Banking	02-04/08			Kiyotaki, Nobuhiro	Ha, Dao
					Nguyen, Duc Khuong	Nguyen, Duc Trung

<sup>1</sup> The meeting was held before the Far Eastern region and the South Asian region were merged. It was therefore called “Far East and South Asia Meeting”.

<sup>2</sup> The meeting was held before the Far Eastern region and the South Asian region were merged. It was therefore called “Far East and South Asia Meeting”.

<sup>3</sup> The meeting was held online due to the COVID-19 pandemic.

<sup>4</sup> The meeting was held online due to the COVID-19 pandemic.

<sup>5</sup> The meeting was held as a hybrid conference due to the COVID-19 pandemic.

### C.2 Invited Speakers for Asian Meetings

#### AMES 2016

Plenary Session Speakers	Andrews, Donald	Yale University	
	Dekel, Eddie	Northwestern University & Tel Aviv University	Presidential Address
	Pakes, Ariel	Harvard University	Griliches Lectures
	Rubinstein, Ariel	Tel-Aviv University	
Invited Speakers	Cho, In-Koo	University of Illinois Urbana-Champaign	
	Gangadharan, Lata	Monash University	
	Ham, John	National University of Singapore	
	Lee, Robin	Harvard University	
	Ok, Efe A.	New York University	
	Santos, Andrés	University of California San Diego	
Weibull, Jörgen	Stockholm School of Economics		

**AMES 2017**

Plenary Session Speakers	Heckman, James <sup>1</sup>	University of Chicago	Jacob Marschak Lecture
	Persson, Torsten	Stockholm University	
	Rosenzweig, Mark	Yale University	
Invited Speakers	Chetty, Raj	Stanford University	
	Durlauf, Steven	University of Wisconsin-Madison	
	Ely, Jeffrey	Northwestern University	
	Greenstone, Michael	University of Chicago	
	Hsieh, Chang-Tai	University of Chicago	
	Kortum, Samuel	Yale University	
	Lee, Lung-Fei	The Ohio State University	
	Tsyvinski, Aleh	Yale University	
	Violante, Gianluca	New York University	
	Zhang, Junsen	The Chinese University of Hong Kong	
Zilibotti, Fabrizio	University of Zurich		

<sup>1</sup> Done with Skype video for not being able to come to Hong Kong due to an urgent personal issue

**AMES 2018**

Plenary Session Speakers	Aguiar, Mark	Princeton University	Presidential Address
	Besley, Tim	London School of Economics	
	Che, Yeon-Koo	Columbia University	
	Hahn, Jinyong	University of California Los Angeles	
	Sannikov, Yuliy	Stanford University	
Invited Speakers	Ambler, Steve	University of Quebec	
	Braun, R. Anton	Federal Reserve Bank of Atlanta	
	Bonhomme, Stephen	University of Chicago	
	Greenwood, Jeremy	University of Pennsylvania	
	Hörner, Johannes <sup>1</sup>	Yale University	
	Kojima, Fuhito	Stanford University	
	Kortum, Samuel	Yale University	
	Li, Hao	University of British Columbia	
	Lizzeri, Alessandro	New York University	
	Maasoumi, Esfandiar	Emory University	
Moll, Benjamin	Princeton University		
Rossi, Barbara	Universitat Pompeu Fabra		
Zhang, Jing	Federal Reserve bank of Chicago		

<sup>1</sup> Could not come for some personal issue

**AMES 2019**

Plenary Session Speakers	Chow, Gregory	Princeton University	
	Heckman, James J.	University of Chicago	
	Morris, Stephen	Princeton University	Presidential Address
	Sargent, Thomas J.	New York University	Chow Lecture
Invited Speakers	Ait-Sahalia, Yacine	Princeton University	
	Sir Blundell, Richard	University College London	
	Hsiao, Cheng	University of Southern California	
	Jackson, Matthew O.	Stanford University	
	Kajii, Atsushi	Kyoto University	
	Linton, Oliver	Cambridge University	
	Newey, Whitney	Massachusetts Institute of Technology	
	Pathak, Parag A.	Massachusetts Institute of Technology	
Sentana, Enrique	Center for Monetary and Financial Studies		
Uhlig, Harald	University of Chicago		

**AMES 2021**

Plenary Session Speakers	Acemoglu, Daron	Massachusetts Institute of Technology	
	Crawford, Vincent	University of Oxford & University of California San Diego	
	Goldberg, Penny	Yale University	Presidential Address
	Hansen, Bruce	University of Wisconsin-Madison	
	Hsiao, Cheng	University of Southern California	
	Imbens, Guido	Stanford University	
	Mookherjee, Dilip	Boston University	
	Newey, Whitney	Massachusetts Institute of Technology	
	Ng, Serena	Columbia University	
	Shaikh, Azeem	University of Chicago	Sargan Lectures
Shiller, Robert	Yale University	Chow Lecture	

**AMES 2022 (Shenzhen)**

Plenary Session Speakers	Chen, Xiaohong	Yale University	
	McFadden, Daniel	University of Southern California	
	Schoar, Antoinette	Massachusetts Institute of Technology	
	Shleifer, Andrei	Harvard University	
	Sims, Christopher	Princeton University	Chow Lecture
	Tabellini, Guido	Bocconi university	Presidential Address

**AMES 2022 (Tokyo)**

Plenary Session Speakers	Kiyotaki, Nobuhiro	Princeton University	Uzawa-Negishi Lecture
	Aguirregabiria, Victor	University of Toronto	
	Ashlagi, Itai	Stanford University	
	Brooks, Benjamin	University of Chicago	
	Dhingra, Swati	London School of Economics	
	Dorn, David	University of Zurich	
	Doepke, Matthias	Northwestern University	
	Haile, Philip	Yale University	
	Kasy, Maximilian	University of Oxford	
	Kitagawa, Toru	Brown University	
	Kline, Patrick	University of California Berkeley	
Invited Speakers	Kock, Anders	University of Oxford	
	Liao, Zhipeng	University of California Los Angeles	
	Lipnowski, Elliot	Columbia University	
	McCloskey, Adam	University of Colorado Boulder	
	Manova, Kalina	University College London	
	Mobarak, Mushfiq	Yale University	
	Oster, Emily	Brown University	
	Park, Albert	Asian Development Bank	
	Pathak, Parag	Massachusetts Institute of Technology	
	Sahin, Aysegul	University of Texas, Austin	
	Shah, Manisha	University of California Los Angeles	

**AMES 2023 (Mumbai)**

	Bertrand, Marianne	University of Chicago	Marschak Lecture
	Blundel, Richard	University College London	
Plenary Session Speakers	Kranton, Rachel	Duke University	
	Morris, Stephen	Massachusetts Institute of Technology	
	Rubinstein, Ariel	Tel Aviv University New York University	

**AMES 2023 (Beijing)**

	Bernanke, Ben Shalom	Brookings Institution	Chow Lecture
	Chen, Xiaohong	Yale University	
	Duffie, Darrel	Stanford University	
	He, Zhiguo	University of Chicago	
Plenary Session Speakers	List, John	University of Chicago	
	Poterba, James	Massachusetts Institute of Technology	
	Rey, Helene	London Business School	
	Stantcheva, Stefanie	Harvard University	
	Xiong, Wei	Princeton University	

AMES 2023 (Singapore)

Plenary Session Speakers	Angrist, Josh	Massachusetts Institute of Technology	Griliches Lectures
	Griffith, Rachel	University of Manchester	
	Jackson, Matthew O.	Stanford University	Presidential Address
	Matzkin, Rosa	University of California Los Angeles	
Van Reenen, John	London School of Economics		
Invited Speakers	Belot, Michele	Cornell University	
	Gao, Jiti	Monash University	
	Goette, Lorenz	National University of Singapore & University of Bonn	
	Hong, Yongmiao	University of Chinese Academy of Sciences	
	Li, Jia	Singapore Management University	
	Meng, Xin	Australian National University	
	Okui, Ryo	University of Tokyo	
	Pan, Jessica	National University of Singapore	
	Quah, John	Johns Hopkins University & National University of Singapore

	Xu, Daniel Yi	Duke University & National Bureau of Economic Research	
Yu, Jun	Singapore Management University		
Zhou, Jidong	Yale University		

## D China Meetings

### D.1 History of China Meetings

In summer 2011, President Bengt Holmstrom and Second VP Jim Heckman wanted to expand activities of the society in China, which they called the China initiatives. Heckman reported on early consultation with China based scholars at the Chicago meeting of the Executive Committee in January 2012, and the committee asked him to explore the possibility of organizing a regular summer meeting in China. The minutes read as follows:

Heckman reported on his ideas for China. There is a rapidly developing university system with scholars fragmented by regional and institutional affiliations. A network of collaboration is missing and connections among leading Chinese economists are often made through affiliations in the US. There was discussion on how the Econometric Society could help to overcome this fragmentation and create intellectual links among them. One thought was to create a separate China sub-chapter or to organize courses or separate summer meetings. Arellano noted that the Society could plan in China the role that other associations have played in other regions. It was agreed that Heckman would explore the possibility of organizing a regular summer meeting in China. Arellano noted that it would be important to coordinate the calendar so that it would not interfere with the Asian meeting. Shin added that the group should have sufficiently broad representation.

Later, President Jim Heckman gave an interim report of the China meetings in August 2012 at the Malaga meeting of the Executive Committee. And the committee approves the first China meeting in Beijing. The minutes read as follows:

Heckman reported on progress of the China meeting of the Econometric Society proposed at meeting of the Executive Committee in Chicago. The organizing committee consisting of Justin Lin and Cheng Hsiao selected Beijing as the first venue of the meeting, to take place on June 2013. Rochet thanked Heckman for pursuing this initiative.

Although it was expected that China meetings coordinate with RSC, its relation to RSC was not necessarily clear. In January 2016, the Executive Committee emphasized that Asian RSC is responsible for the organization of regional activities in Asia, and that China meetings are such regional activities. The committee therefore requested the ARSC to make a statement on future of China meetings. Consequently, in March 2016, ARSC approved a MEMORANDUM OF UNDERSTANDING, which states:

1. A China meeting will be held in Wuhan in 2017.
2. The ARSC expects to approve proposal for China meetings in 2018, 2019, and 2021. That is, the ARSC expects to endorse a China meeting as an activity of the society in the region in these years, if suitable proposals are submitted to the ARSC.
3. There will be a consultation in 2020 on a China meeting in 2022, and in 2022 on the future of China meetings from 2023 onward.

## D.2 Detail of China Meetings

Year	Host	Dates	# Submissions	# Registrations	Program Chair(s)	Organizing Chair(s)
2013	Peking University	14-16/06			Wu, Ho-Mou	
2014	Xiamen University	25-27/06			Hong, Yongmiao	Cai, Zongwu
2015				World Congress		
2016	Southwestern University of Finance and Economics	25-27/06				
2017	Wuhan University	09-11/06			Sun, Xiang Sun, Yixiao Xie, Danyang Zhu, Xiaodong	
2018	Fudan University	15-17/06			Gan, Li Xie, Danyang Zhang, Jun	Chen, Shiyi
2019	Jinan University	18-20/06			Feng, Shuaizhang Hu, Yingyao	
2020				World Congress		
2021	ShanghaiTech University	01-03/07			Fang, Hanming Liu, Qingmin Song, Zheng Michael	Chen, Yi Chen, Yvonne Jie Guo, Ming Lu, Ding

## D.3 Reorganization from 2022 Onwards

“Proposal for Future of China meetings and Asian Meetings of the Econometric Society from 2022” was adopted at the 2020 ARSC meeting held online on August 20, 2020. From 2022 onwards, the ARSC will integrate the organization of meetings held in China with meetings in all other parts of Asia, and the China meetings will thereafter be subject to the rules for subregional meetings.

## E Detail of ES Schools in Asia

Year	Host	Dates	Organizer(s)
