This *Aide Mémoire* contains a detailed description of the organization and procedures of the Econometric Society within the Africa Region. It complements the Rules and Procedures of the Econometric Society. It is maintained and regularly updated by the Chair and the Secretary of the Africa Standing Committee in accordance with the policies and decisions of the Committee.

1 Africa Standing Committee

1.1 Responsibilities

1. The Africa Regional Standing Committee (AfrSC) is responsible for the organization of the activities of the Econometric Society (ES) within the Africa Region. It should undertake the consideration of any activities in the Region that promote interaction among those interested in the objectives of the Society, as they are stated in its Constitution.
2. The Standing Committee is responsible for establishing regular and systematic procedures for the organization of the Africa Meeting of the Econometric Society (AFES). AFES is held annually except for those years in which there is a World Congress.
3. The Standing Committee selects the dates and locations of AFES, and appoints the Programme and Local Arrangements Chairs. These decisions should customarily be taken at least two years in advance, so that those responsible for future meetings have sufficient time to make the necessary arrangements.¹

Some time before the Standing Committee meeting the Secretary sends a list of candidates that have been mentioned as potential Programme Chairs at previous meetings to the members of the Committee. This allows the members acquiring more detailed information about the candidates and suggesting new names in time. Any proposals for candidates for Programme Chairs should be accompanied by a recent CV or a reference to a homepage.

The Standing Committee also determines (a) the number of days the meeting should last, (b) the scheduling of meetings (e.g., the Annual General Assembly and the joint meeting RSC-ES central office) of members to be held during the regional meeting.

The Standing Committee is also responsible for coordinating all the other special activities in the region, such as Summer/Winter Schools, Training Workshops², and Sponsored Lectures.

1.2 Membership

The members of the Africa Standing Committee of the Econometric Society are the following:

Voting members: The number of voting members on the committee at any year must be larger than or equal to six (6) and include:

- *Chair:* The first of the following list who resides in Africa:
 - The President of the Society
 - The First Vice-President
 - The Second Vice-President
 - The Past President

¹Appendix A provides specific ES guidance on selection of host and organization of regional meetings.

²See Appendix B for specific ES guidance on selection of host and organization of Summer/Winter schools and Training Workshops.

If none of these resides in the Region, the President will appoint an African member of the Council of the Society to act as Chair.

- *Ex Officio Members*: Any other Officer of the Society on the above list who resides in Africa.
- *African Members* of the Council of the Society.
- *Elected Members*: At least two members are chosen by the members of the Society in the Region as stipulated in the Rules and Procedures of the Society. If the number of members at this point is less than six (6), additional committee members shall be elected by the members of the Society in the Region to extend the number of voting members to six (6) members. The Africa Standing Committee determines the total number of the elected members and respective ballot slots in any given year. Elected members serve a non-renewable term of four years.

Non-voting members:

- *Secretary*: Appointed by the Committee for a term of three years (beginning at January 1 of the first year). The appointment can be renewed up to a maximum of three terms.

A Search Committee for a Secretary is constituted by the Chair of the Standing Committee at least one year and a half before renewal and consists of the Chair of the Standing Committee, the Executive Vice-President of the Econometric Society (as a non-voting member) and at least two other members of the Standing Committee. The current Secretary is expected to be consulted by the Search Committee. The Search Committee selects a list of candidates and approval of this list is sought with the Standing Committee. In case of any event preventing the current Secretary to accomplish her/his duties, a Search Committee is constituted, a list of candidates is ranked and the candidates are approached by the Chair in the order of the list to see if they are willing to serve. This candidate is then proposed to the Standing Committee for approval.

- *Programme Chairs* of AFES of the past, the current, and the next year.³

In addition,

- the President (if not residing in the Region),
- the Executive Vice-President, and
- the Executive Director of the Society,

are invited to attend the meeting of the Africa Standing Committee extended to the central office. This extended meeting is held once a year during the Africa Meeting of the Econometric Society (AFES) or the World Congress of the Econometric Society (ESWC).

³See Appendix D.

1.3 Procedures

1. The *Chair* of the Standing Committee, in coordination of the Secretary, is responsible for arranging meetings of the Committee and communicating the decisions of the Committee to the Executive Director of the Society. The Committee meets quarterly. Three of these meetings are held virtually and one in person. In years of an Africa Meeting of the Econometric Society (AFES), the yearly in person meeting is held at the same site, and, in world congress years, at the site of the World Congress (ESWC). If, in a certain year, AFES or ESWC is moved online, the regional committee meeting also takes place online. The Chair convenes the meetings and sets the agenda in cooperation with the Secretary. The latter is responsible for invitations to the meetings of the Standing Committee. The Secretary takes minutes at the meetings of the Committee. The Chair maintains correspondence between the members of the Committee, the Executive Vice-President, and the Executive Director of the Society. In coordination with the Secretary, he/she liaises with conference committees, Programme Chairs and the Local Arrangement Chairs with regard to their arrangements for AFES, and other activities in the region.

If the President of the Society is not present, the Chair of the Standing Committee chairs the meetings of members held during AFES and is responsible for the agenda.

2. The *Secretary* actively collaborates with the Chair in dealing with all issues facing the Standing Committee. He/she is responsible for invitations to the meetings of the Standing Committee and, in conjunction with the Chair, prepares the agenda and supporting memoranda. He/she takes minutes at the meetings of the Committee. He/she is responsible for maintaining and updating website of the Region: <https://www.africaeconometricsociety.com/> as well as the Aide Mémoire.

The Secretary maintains correspondence between the members of the Committee, the Executive Vice-President, and the Executive Director of the Society. He/she liaises with the Programme Chairs and the Local Arrangement Chairs with regard to their arrangements for AFES.

3. The *Programme Chairs* of AFES are responsible for organising the Plenary and Parallel Invited Sessions and the Contributed Sessions of the Meeting. They are entirely free to arrange the programme as they see fit. This includes lunch slots over the whole period of the conference. The Programme Chairs of the current and the following year are expected to attend the Standing Committee Meeting to facilitate the transmission of information about organizing the programme. The Programme Chairs of the current year provide a written report to the Standing Committee which summarizes their arrangements.

4. The Local Arrangements Chairs of AFES are responsible for arranging the physical facilities, accommodation, meals, and social events. They collaborate with Programme Chairs to arrange the meeting website, which should contain registration and programme information. The local website should be linked to the “Future Meetings” section of the Society’s website and the Africa Region Website. The Local Arrangements Chairs of the current year provide a written report about the local arrangements to the Standing Committee along with statement of accounts, after the conclusion of the conference.

1.4 Regional finance

AfRSC holds “the Africa Vanguard Fund”, which is the discretionary fund for African regional activities. This account is maintained by the central office of the Econometric Society on behalf of the Africa region, and the account balance can be ascertained by either the AfRSC Chair or Secretary, from either the Executive Vice President or Executive Director of the Society. This fund is supplied by surplus from previous conferences - see background below.

The central office of the Econometric Society has also initiated a fundraising campaign in 2019 to support African scholars which is collected in the “Fund for African scholars.” This is managed by the central office and decisions regarding its use are jointly made by the central office and the regional committee. The Africa Vanguard Fund and the Fund for African Scholars are held in cash on the US money market.

As of January 4, 2024, the balance of the Africa Fund is 19,848.28 USD and that of the Fund for African Scholars is 32,819.06 USD.⁴ Part of the Fund for African Scholars is used to fund the *Sponsored membership Program* initiated in 2021 and aiming to provide financial support to insufficiently funded Africa based scholars, researchers and graduate students to become member of the Econometric Society. Part of the fund has also been used to fund participation of African scholars to the 2020 Econometric Society World Congress that took place virtually in Milan. The up-to-date list of donors can be found in Appendix E.

Background

The Executive Committee decided to streamline the rules governing regional finances at its January 2016 meeting.

- Starting in 2017, at the end of each meeting, each region will remit to the main account of the Society 10% of the surplus generated by the regional meetings, cumulated over the year; the other 90% will accrue to the regional Vanguard fund. The AfRSC account is currently held in a US dollar money market fund.
- Starting in 2023, Africa will receive a grant of \$5k for young economists activities every year from the central office to support conference participation. The AfRSC may decide upon request to increase this financial support from the region specific funds (Africa fund and the Fund for African scholars). The Africa RSC, the central office, and the conference organizers jointly decide how to allocate these funds. Typically, the RSC will make a proposal, perhaps prompted by a request from the local organisers, and then the Executive Vice President will agree or not. A written justification of the use of the fund must be provided in the conference report by the local organizers. Information and sample documents can be found on the Program and Local Organizing Chairs webpage at: <https://www.econometricsociety.org/content/program-and-local-organizing-chairs>. (Restricted to RSC members only.) The Executive Director of the Society can provide more information if needed.

2 Africa Meeting of the Econometric Society (AFES)

The Africa Meeting of the Econometric Society (AFES) is the official regional meeting.

⁴Yearly contributions to the Fund for African Scholars can be found in Appendix E.

2.1 Timing and Format

The first ever Africa Meeting of the Econometric Society took place in 2014 in Addis Ababa in Ethiopia and was organized by the Ethiopian Economic Association. Early editions of the meeting took place in July of each non Econometric Society World Congress year. However, since 2019, the AfRSC decided that the meeting shall take place preferably in the first half of June. This is to avoid the travel peak season which has an adverse effect on participation. The conference is a 3-days event starting, typically, on Thursday through Saturday.⁵ The Africa Regional Standing Committee conjointly with the central office of ES may decide in the future to increase the duration of the event. Such a decision shall be based on sustained up-trends in conference participation.

The meetings are in person events. Nevertheless, it is strongly encouraged to have a fully hybrid format allowing remote participation. This is at the discretion of the local arrangements committee.

The Standing Committee selects the dates and locations of AFES, and appoints the Programme and Local Arrangements Chairs. These decisions should customarily be taken two years in advance (at AFES in that year) so that those responsible for future meetings have sufficient time to make the necessary arrangements.

The members of the AfRSC are encouraged to contact colleagues who might be interested in acting as local organizer of a future AFES. Proposals to host a meeting should specify the candidates for the Programme and Local Arrangements Chairs with their vita, the physical facilities available for sessions such as the maximum number of parallel sessions for contributed papers, accommodation and meal arrangements (lunch should be provided), and social events, as well as an estimated budget that includes total costs and revenues (from registration fees and from other sources). They should be submitted to the Secretary (the chair of AfRSC, when vacant), who can provide further information.

The Local Arrangements Chair (LAC) is responsible for arranging the physical facilities, accommodation, meals, and social events. He/she collaborates with the Programme Chairs to arrange the meeting website, which should contain registration and Programme information. The local website should be linked to the “Future Meetings” section of the Society’s website and to the Regional Standing Committee’s website.⁶ In the event that the organizing committee cannot provide a website, the Regional Standing Committee’s website shall provide a webpage for the conference. Relevant information shall then be displayed on that webpage accessible from the section conferences of the website.⁷

The Chair of the current year provides a written report about the local arrangements to the Africa Regional Standing Committee as well as the budget of the meeting within a reasonable time period after the meeting is completed. Additional information from the central office can be found on the Program and Local Organizing Chairs webpage at:

<https://www.econometricsociety.org/content/program-and-local-organizing-chairs>.

2.2 Invited Sessions

The Programme Chairs are responsible for inviting the speakers and chairs of the Plenary and Parallel Invited Sessions. They also decide about whether to invite discussants for the Parallel

⁵The locations of past AFES are listed in Appendix C

⁶<https://www.africaeconometricsociety.com/>.

⁷<https://www.africaeconometricsociety.com/conferences>.

Invited Sessions.

Presidential Address

The Presidential Address usually takes place on the first or second day of the conference. The President of the Society is invited for the lecture by the Programme Chairs. The Presidential Address is a plenary ‘A-session’, i.e. there are no other sessions or events at the same time. There are no discussants of the Presidential Address, and it is customary that the Chair of the standing committee chairs the session. The travel cost of the president will be covered by the central office of the society, but the programme committee is expected to make efforts to raise its own funding to cover it.

Plenary sessions

There should be at least one or two plenary A-sessions in addition to the Presidential Address.

Parallel Invited Sessions

In addition to the plenary ‘A-sessions’, the Program committee may consider holding plenary ‘B-sessions’. A plenary B-session consists of two or three parallel sessions. The session titles are chosen by the respective Programme Chair.⁸ The programme committee may also consider holding contributed invited sessions (IS). These sessions follow the same rules as the contributed sessions as indicated below. The main difference being that the speakers are invited. The interest of the contributed invited sessions is to make the event known to more established researchers.⁹ The guidance for number of invited contributed sessions is that they do not exceed 40% of the total number of contributed sessions. This ratio is expected to decline as the event becomes more popular.

Named Lectures

The Marschak Lecture: Each year other than World Congress years, the Society’s Marschak Fund supports a Jacob Marschak lecture, the location of which rotates among the regional meetings held outside North America and Europe (see in Appendix C the list of scheduled named lectures to be hosted in Africa through 2029). The lecturer is appointed one year in advance by the Program Chair(s) of the meeting after consulting with the Executive Vice-President of the Society. The travel, accommodation and registration expenses of the lecturer are paid by the Marschak Fund, and are consistent with the terms offered to the President, with an upper limit of \$4,000. The Executive Committee decides the location of the lectures which rotate annually.

In addition, the Africa Region is entitled to \$4,000 in funding for a Marschak-like lecture when not hosting the Marschak lecture. The \$4,000 in support from the central office of ES may cover travel, accommodations, and registration expenses of the Marschak-like lecturer. These

⁸Note that the AFES 2023 (in Nairobi hosted by AERC) is the first that featured plenary B-sessions. Three (3) semi-plenaries were run in parallel.

⁹AFES 2022 hosted by the Ethiopian Economic Association in fully virtual format is the first to feature contributed invited sessions. This was followed by AFES 2023 hosted by AERC in hybrid format in Nairobi, Kenya.

donated funds for the Marschak and Marschak-like lectures should be clearly acknowledged in the conference materials.

The Marschak-like lectures can be named after a famous economist. Of importance is the Society's strong desire to improve the gender balance of invited speakers. The Program Chair must make an extra effort to seek out qualified female speakers. The Scientific committee must consult with the Executive Vice President of ES on the name of the Marschak and Marschak-like lecturers before approaching them in order to avoid overlaps across regions.

The Arthur Lewis Lecture: Starting from 2023, the AfRSC has decided to have the Arthur Lewis Lecture ideally each year as part of the Africa Meeting of The Econometric Society. This lecture is the first named lecture of the region. It shall be assigned to high profile scholars in economics. This lecture will be considered as a Marshack-like lecture. During the years where the Marschak lecture does not take place in Africa, the Arthur Lewis Lecture shall benefit of \$4,000 in funding from the Central Office. In the years of Marschak lecture in Africa, the Arthur Lewis lecture may be skipped at the discretion of the local organizing committee. The speaker at the Arthur Lewis lecture shall be proposed by the program committee and approved by the Africa Regional Standing Committee.

Lecture series: Griliches, Hotelling, and Sargan: Each year other than World Congress years, the Society organizes three series of lectures: the Griliches Lectures in Applied Economics, the Hotelling Lectures in Economic Theory, and the Sargan Lectures in Econometrics. The lectures present an overview of a topic in which the lecturers have done significant research. They are typically above PhD level, but not necessarily at the research frontier. Attendance is open to all members of the Society. The lecturers are strongly encouraged to submit their lectures to the Econometric Society Monograph Series.

The Program Committee shall accommodate the lecture series over two days with three 1.5-2hour sessions, preferably right before or after the official Congress program, and to announce them as a differentiated activity.¹⁰

The lecturers are proposed by a Lecture Series Committee appointed by the President. The Committee is chaired by a former President and includes two additional members of the Society. Their three-year appointments are staggered to provide some continuity. In addition, the two editors of the Monograph Series are ex-officio members but they do not have voting rights. In the spring of year t , the Lecture Series Committee will propose the lecturers for the year $t + 2$. The location of the lectures rotates among the regional meetings. The travel and accommodation expenses of the lecturers are paid by the local organizers. The central office of ES does not provide any funds for these lectures.

In 2023, the EC decided to add three more lecture series so that, starting in 2026, for a total of six lectures. Every regional meeting will have one of these (except in World Congress years when there is no regional meeting). An important additional change is that the central office will be providing up to \$4000 toward the expenses associated with the lecture series for each of the regional meetings. The new series are the Lewis-Ostrom Lectures in Applied Economics, the Lucas-Modigliani Lectures in Macroeconomics and Finance, and the Blackwell-Robinson

¹⁰Past and scheduled Named Lectures for the Africa Region can be seen in Appendix C

Omnibus Lectures.

2.3 Contributed Sessions

1. The Programme Chairs handle all matters related to the submissions of papers contributed for presentation at AFES. The sole criterion for acceptance of a paper shall be its scientific merit. The Programme Chairs appoint as many members to the Programme Committee as considered appropriate.
2. The number of parallel sessions in the Contributed Sessions in any given time slot should remain within the range of 5 - 10. Each session should contain 3 - 4 presentations with about 30 minutes allocated by paper including Questions and Answers.
3. Each author may submit only one paper to AFES. The corresponding author of any paper submitted to AFES must be a member of the Econometric Society at the time the paper is submitted, and the same applies to any co-author who replaces the original submitter as corresponding author or presenter. These membership requirements must be prominently displayed in the Call for Papers. The Programme Chairs are assisted by the Society's Executive Director in checking the membership status of submissions.
4. The processing of papers contributed to AFES is handled electronically through Conference Maker, or a similar cost effective provider such as Oxford Abstracts. The Programme Chairs are assisted by the Society's Executive Director to setup the digital platform.
5. Suggested timetable for submissions is as follows: (a) Call for papers must be out no later than 8 months before the conference, that is October for a meeting taking place in June, (b) Complete submissions must be received by approximately 5 months before the meeting - that is, in January for a meeting taking place in June, (c) Decisions on submissions are made approximately 4 months before the meeting, (d) Accepted papers are only included in the final programme if presenting authors have registered by approximately 3 months before the meeting.

Econometric Society Africa Region's Young Economist Best Paper Award

A competition for the best paper from young economists shall be open for papers presented in the contributed sessions at the conference by young scholars or graduate students.¹¹ While the Program committee is in charge of elaborating the selection criteria and the choice of the award winning paper, the following guidelines shall be followed.

1. Candidates to the award must be informed of eligibility criteria and express their interest to compete prior to the start of the conference.
2. The competition shall be mainly open to presenters from underfunded institutions.
3. The name of the award - to be advertised and/or displayed on calls is "*Econometric Society Africa Region's Young Economist Best Paper Award*".

¹¹See Appendix F for the list of past recipients.

4. The Local Arrangements and Program committees are expected to find a sponsor for the prize in which case, the award is called: “*Econometric Society Africa Region’s Young Economist Best Paper Award* Sponsored by ‘sponsor’s name’ ”.
5. In the case where there are no sponsors, the organizers shall pay the default and minimum prize money of 500 USD to the winner from the event’s resources.
6. Preferred sponsors are research centers, academic institutions, public or private companies and foundations. Individual donations may be accepted but recognition through the name display as above is not encouraged. Specifically, we do not encourage to circulate a name like: “Econometric (...) Sponsored by Mr X.”
7. For a co-authored paper to be selected as award winner, the program committee must ensure that the presenter candidate is the major contributor to the paper. This should be a condition to enter the competition.
8. While the main target of the award is young scholars from underfunded institutions, if resources are available, the Program committee may open a second award to a large participation from young scholars irrespective of their affiliations.

2.4 Other Events

The meeting of the Africa Regional Standing Committee extended to the central office:

The meeting of the Africa Regional Standing Committee extended to the central office (the Extended AfrSC meeting) is prepared by Chair with assistance of Secretary. Usually it takes place during AFES around lunchtime on the first and/or second day of the meeting.

The general assembly:

The general assembly gathers all members of Econometric Society affiliated to the region and registered for the conference and the Regional Standing Committee members. This meeting is prepared by the Chair with the assistance of the Secretary. It is typically scheduled as the closing session of the conference. It offers a suitable platform to collect feedback from members and also to make important announcements such as the winner of the Econometric Society Africa Region’s Young Economist Best Paper Award, the place of the next conference, summer schools, and training workshops.

Social Events

There should be an organized dinner for all the participants, usually on the second day. The cost of dinner should be included in the conference fee. Other social events, e.g., excursion to sightseeing spots, might be organized, but it should not be part of the conference budget and its cost should be completely born by the participants to the specific events.

3 Appendices

3.1 Appendix A: Econometric Society Rules and Procedures for Regional Meetings

See www.econometricsociety.org/society/organization-and-governance/rules-and-procedures#62

While we invite the reader to consult the link above for the most up-to-date version of the rules and procedures for regional meetings, below is the current update.

The Regional Standing Committee is responsible for establishing procedures for the organization of meetings in the region, choosing the dates and locations, the number of days the meeting should last, whether the meeting is to be held jointly with other Societies, as well as appointing the Program and Local Arrangements Chairs. These decisions should customarily be taken at least one year and preferably two years in advance, so that those responsible for future meetings have sufficient time to make the necessary arrangements.

Proposals to host a meeting should specify the physical facilities available for sessions, accommodation and meal arrangements, and social events, as well as an estimated budget that includes total costs and revenues. Regional meetings should be self-financing, as the Society does not underwrite any potential losses under any circumstances. Revenue sources are typically through fundraising, sponsorships, pre-authorized Society funds, publisher exhibits, and registration fees, whose level must be approved by the Regional Standing Committee.

The Program Chair(s) appoint the Program Committee and arrange the program as they see fit, subject to the constraints on the number of days and sessions. The sole criterion for acceptance of a paper shall be its scientific merit.

The corresponding author of any paper submitted to any of the regional meetings, World Congress, workshops, or schools must be a member at the time the paper is submitted, and the same applies to any co-author who replaces the original submitter as corresponding author or presenter. These membership requirements must be prominently displayed in the Call for Papers for each meeting. At the discretion of the Executive Committee, for special interdisciplinary conferences, this requirement may be waived for submissions from disciplines outside the traditional areas of the Econometric Society broadly defined.

If there is a meeting of Fellows and/or members, it will be chaired by the President or the person that he/she designates.

Any award by another Society to be presented at a regional meeting must be approved by the Program Chair(s) and communicated to the Chair of the Standing Committee.

The Standing Committee is responsible for sending meeting announcements at least one year in advance to the Executive Director of the Society to be posted on the Society's website and transmitted to the membership by email. The Local Arrangements Chair collaborates with the Program Chair(s) to arrange meeting websites, which should be linked to the "Future Meetings" section of the Society's website.

Within six months from completion of the meeting, the Local Arrangement Chair(s) is expected to send a detailed written report to the Regional Standing Committee and the Executive Vice President about the local arrangements, and include in it the final accounts with itemized revenues and expenses, and the conference net income. Simultaneously, the Scientific Committee Chair(s) is expected to send a separate written report covering plenary, invited, and contributed sessions, as well as the selection process used. Those reports will be filed in the Central office and shared with the Chairs of the Scientific Committee and Local Arrangements

of the following edition of the meeting to provide continuity in planning.

The chair of the Regional Standing Committee, together with the regional officers, holds the responsibility for informing the Central Office of the agreed division of the conference net income between the local organizers, the Society and other possible partner associations, and ensuring that those final reports and 10

Regional Standing Committees will ascertain that all members may enter and exit the country location. If this is not the case, the Regional Standing Committee must request an exemption from the Council.

3.2 Appendix B: Econometric Society Rules and Procedures for Summer Schools and Training Workshops

In 2020, the Executive Committee decided to create a Schools Committee, now Schools and Workshops Committee (SWC), to guide, approve and evaluate Summer/Winter Schools and Training Workshops sponsored by the Society. It consists of a chair and two or three additional members representing different regions and fields appointed by the Executive Committee for staggered three-year terms.

Current members are: Andy McLennan (The University of Queensland, Chair: 2023-2025, a.mclennan@economics.uq.edu.au), Xiaohong Chen (Yale, Member: 2024-2026), and Eduardo Engel (University of Chile, Member: 2023-2025).

Goals and Guidelines

The aim of the Summer/Winter Schools, Workshops and related activities for young scholar sponsored by the Society is to help build research capacity in areas defined geographically or by subject where participants have limited exposure to methods, outstanding teachers and researchers. They typically feature lectures providing an overview of recent developments at the research frontier or training in skills for high quality research, as well as opportunities for participants to receive feedback and mentoring advice, and to interact with one another, including contributed sessions by young scholars.

All applicants to Schools and related activities for young scholar must be members of the Society at the time of application.

Organization

The schools are organized by local hosts, who are responsible for raising necessary funds, selecting dates, location, topics and lecturers, inviting lecturers, preparing an announcement which specify topics, application requirements and deadlines, participation cost/financial aid and criteria for selection; screening applications and selecting participants, and all other local arrangements. The role of the ES is limited to (i) approving proposals for new schools and evaluating applications for renewal after every four years of operation, (ii) advertising the school through the Society's web site and blast email system, (iii) guiding local organizers with set up of Conference Maker submission software for receiving participant applications and registering participants. ES membership is required for all participants. If local organizers use conference software other than Conference Maker, they are responsible for checking ES membership status of all participants through the Society's new membership verification process. To verify membership, please click on the following link, <https://www.econometricsociety.org/member-verification>, and cut and paste all names and/or email addresses of registered participants onto the displayed page. The function will allow regions to search in groups or individually by first and last name, partial name, and/or email address. Membership status will appear as either active if current, blank if not current, or "not found". If there are multiple matches, all will be listed.

Through the SWC and upon request, the Executive Committee of the ES may provide financial support for schools along the guidelines below. The concerned regional standing committees can also decide on allocation of their resources to subsidize travel costs for students and younger faculty.

Schools can be organized either on a one-time basis or for multiple years. Multi-year proposals are encouraged, allowing schools and local organizers to learn from experience, gain reputation and provide training to larger numbers of participants. The organizers may rotate locations in different years, but should take responsibility for coordination across different locations. The organizers can seek help and advice from the SWC and concerned RSCs. The Standing Committee will consult the relevant RSCs for their advice in connection with approval, organization and evaluation of each school. RSCs will be asked to approve dates of each school in order to avoid conflicts with other conferences, workshops or ES activities in the concerned region.

The Schools should be open to participants from all regions. The ES will be willing to collaborate with other sponsors who play an important role in funding or organization. The language of instruction and all presentations will be in English. Analogous to rules applying to regional meetings of the Econometric Society, within 6 months of meeting completion, the associated regional standing committee and the school organizers shall submit a financial report to the Society's EVP along with 10% of any positive surplus in the School budget. At the same time, if the school has utilized the Society's contract with Conference Maker to handle registration and fee collection, a 4.5% credit card processing fee will be applied to cover the Society's credit card transaction costs and a fee of \$500 will be deducted from the registration fees to be paid to Conference Maker for handling registration.

Initiation/Approval of New Schools and Training Workshops

Proposals to set up new schools should be prepared by local organizers and submitted to the SWC for approval. Assistance and advice for preparing proposals to potential organizers can be provided by the SWC and RSC chairs. RSCs can help coordinate proposals submitted from their respective regions. In under-represented areas the SWC will work with RSCs to search for potential hosts and encourage them to initiate required schools (see further detail below).

Proposals should be submitted to the SWC at least 12 months in advance of the proposed date of the first school. The SWC will handle proposals on a rolling basis. Following consultations with the chair of the RSCs, it will make approval decisions within one month.

The SWC will coordinate coverage, names and dates of different schools. Names should include the Econometric Society, such as 'Econometric Society Summer School on _____ in _____', or '(Region X) Summer School in _____, sponsored by the Econometric Society and _____ (joint sponsors)'. The region or topic concerned should also feature in the school name. The SWC will strive to avoid conflict of dates with other conferences or schools, or excessive overlap of topics with other schools in neighboring locations.

Proposals should explain how the school would address the skill shortage or otherwise further the goals of the Econometric Society and the plan for its organization, including proposed location, dates and topics, and plans for (a) budgeted expenditures and fund-raising including sponsorships and registration fees, (b) lecturers to be invited, (c) approximate number of participants, procedures for recruitment and screening, participant fees and financial aid, (d) division of school hours into lectures and workshops, (e) opportunities for participants to receive individualized feedback on their research or mentoring advice from instructors, and (f) participant feedback on courses, instructors and school organization.

Proposals will be evaluated on the basis of assessed feasibility and extent to which the primary goal of research capacity building is likely to be furthered. The SWC is not wedded to any 'one size fits all' approach and is willing to entertain variations from the detailed guidelines

listed here depending on local need and circumstances on a case-by-case basis.

Financial support from ES

In August 2022, the EC decided that starting in 2023, \$20,000 will go to the Schools and Workshops Committee, whose members will decide its allocation as needed and upon request only. The common practice would be to require funding as needed as part of the Summer School or Training Workshop approval request file.

Reporting Requirements and Renewals

Organizers should send the SWC a report on functioning of the school after three years of operation following the previous approval granted. The report should include details for the past three years concerning: (a) lecture topics, instructors, teaching materials (e.g., links to curriculum, reading lists, presentation slides), (b) number of participants, criteria for selection, geographic range of applications and participants, costs charged/financial aid provided for participants, (c) student presentations/instructor feedback opportunities; student evaluations if available.

Existing schools seeking renewal beyond 2020 (with the exception of those already approved for 2021) should submit a report and renewal application in 2020 at least 12 months prior to holding the next school. The renewal application should explain any changes envisaged for organization, scale or funding compared to past functioning. They will receive a decision within one month from the SWC after consultation with relevant RSCs. Going forward, approval will be granted for four years at a time, with reports and renewal applications due at the end of three years.

Initiatives for New Schools in Under-represented Areas

The SWC will work with RSCs of under-represented areas such as Africa to promote new schools. Primary responsibility for developing such a strategy is delegated to the concerned RSCs. The SWC will receive input from the RSCs regarding possible assistance that could be provided by the Econometric Society towards this end, and based on these make suitable recommendations to the Executive Committee. Strategies may include holding online schools, workshops or conferences; special funding for financial aid or school subsidies; helping organize events in the region concerned which attract distinguished speakers.

Online Training Workshops in the Africa Region

In response to the need for training in the Africa Region, the Africa Regional Standing Committee has initiated and got the approval for two (2) Online Training Workshops yearly beginning in 2023. They are named *Africa Training Workshop in Econometrics* or *Africa Training Workshop in X*, if the field X is not identified as (applied) econometrics. They shall take place respectively around the first half of June and the first half of December each year.

These workshops shall be organized by members of AfrSC. If needed, the committee (AfrSC) may also choose to assign the organization to non-members of their choice. In this case, the choice of organizer(s) shall be made collectively by the committee.

While the approval of the online training workshop series was granted in early 2023, the AfrSC is expected to request approval for each edition especially if financial support from the SWC is needed.

3.3 Appendix C: Past Africa Meetings, Summer Schools, and Training Workshops of ES

(a) AFES

More information regarding past conferences can be found at:

<https://www.africaeconometricsociety.com/conferences>

2023 Organizer: African Economic Research Consortium (AERC); Place: Nairobi, Kenya; Date: June 1-3, 2023; Program Chair: *Theophile Azomahou*, AERC; Local organizing committee chair: *Theophile Azomahou*, AERC; Numbers: 371 registered participants (230 onsite), 237 presentations (contributed (invited) sessions), 37 contributed sessions, 23 invited contributed sessions, 3 panel contributed sessions, 3 semi-plenaries, and 6 plenary sessions.

Meeting format: **Fully hybrid**

Keynote Speakers:

Daron Acemoglu (MIT, recorded online, semi-plenary); *Ernest Aryeetey* (ARUA, live online, semi-plenary); *Esther Duflo* (MIT, Nobel Memorial Prize in Economics – 2019, live online, plenary); *Hippolyte Fofack* (AFREXIMBANK, onsite, plenary); *Rosa Matzkin* (UCLA, live online, plenary) - Presidential address; *Nathan Nunn* (UBC, onsite, plenary); *Anthony Simpasa* (Africa Development Bank, onsite, semi-plenary); *Arthur Lewis Lecture by James Robinson* (Chicago, onsite, plenary); *Leonard Wantchekon* (Princeton, onsite, plenary)

Financial support from ES: Central Office: 5K + 4K (Arthur Lewis Lecture); AfrSC: 5K.

2022 Organizer: Ethiopian Economic Association; Place: Addis-Ababa, Ethiopia; date: June 2-4, 2022; featured the Hotelling lecture: May 31-June 1; Program Chair: *Alemayehu Seyoum Taffesse*, IFPRI; Local organizing committee chair: *Amdissa Teshome*, EEA; Numbers: 186 participants, 128 presentations, 28 contributed sessions and 11 symposia.

Meeting format: **Fully virtual**

Keynote Speakers:

Augustin Fosu (University of Ghana, Legon and ISSER); *Nobuhiro Kiyotaki* (Princeton University) - Hotelling Lectures; *Michael Kremer* (University of Chicago, Nobel Memorial Prize in Economics – 2019); *Tavneet Suri* (Massachusetts Institute of Technology, Sloan); *Guido Tabellini* (Bocconi University) - Presidential address; *Leonard Wantchekon* (Princeton University)

- 2021 Organizer: Ecole Nationale Supérieure de Statistique et d'Économie Appliquée (ENSEA); Place: Abidjan, Côte d'Ivoire; date: June 3-5, 2022; featured the Marschak lecture June 2; Program Chair: *Prosper Dovonon*, Concordia University & *Ismael Mourifié*, University of Toronto; Local organizing committee chair: *Hugues Kouadio*, ENSEA; Numbers: 227 participants, 164 (contributed) presentations, 41 contributed sessions; 206 submissions.
Meeting format: **Fully Hybrid**. First ever fully hybrid meeting of Econometric Society.
Keynote Speakers and panelists:
Manuel Arellano (CEMFI, Madrid) - Marschak lecture; *Lisa Cook* (Michigan State University); *Pascaline Dupas* (Stanford University); *Pinelopi Goldberg* (Yale University) - Presidential Address; *James Heckman* (University of Chicago, Nobel Memorial Prize in Economics – 2000); *Kirabo Jackson* (Northwestern University); *Yaw Nyarko* (New York University);
Gilles Fagninou (UNICEF); *Raoul Kone* (Ministère de l'Éducation); *Isaac Mbiti* (University of Virginia); *Koffi N'guessan* (Ministère de l'Éducation Technique).
- 2019 Organizer: Bank Al-Maghrif; Place: Rabat, Morocco; date: July 11-13, 2019; featured the Sargan lecture: July 10; Program Chair: *Abderrahim Taamouti*, Durham University; Local organizing committee chair: *Abderrahim Bouazza*, Bank Al-Maghrif; Numbers: 150 participants, 106 (contributed) presentations, 30 contributed sessions; 289 submissions.
Keynote Speakers and Panelists:
Marc Hallin (Université Libre de Bruxelles); *Stephen Morris* (Princeton University) - Presidential address; *Dani Rodrik* (Harvard University); *Christopher A. Sims* (Princeton University, Nobel Memorial Prize in Economics – 2011); *Elie Tamer* (Harvard University) - Sargan lecture; *John Taylor* (Stanford University);
Mohamed Berrada (Hassan II University); *Zouhair Chorfi* (Ministry of Economy and Finance); *Larabi Jaïdi* (Mohammed V University); *Moubarack Lo* (Economic Prospective Bureau of Senegal); *Mohammed Tawfik Mouline* (Royal Institute for Strategic Studies).
- 2018 Organizer: African School of Economics; Place: Cotonou, Benin; date: July 12-14, 2018; Program Chair: *Prosper Dovonon*, Concordia University & *Leonard Wantchekon*, Princeton University; Local organizing committee chair: *Africa School of Economics*; Numbers: 120 participants, 89 (contributed) presentations, 28 contributed sessions; 195 submissions.
Keynote Speakers and panelists:
Tim Besley (LSE) - Presidential address; *Eliana La Ferrara* (Bocconi University); *Roger Myerson* (University of Chicago, Nobel Memorial Prize in Economics – 2007);
Moussa Blimpo (The World Bank); *Renee Bowen* (UC San Diego); *Habiba Djebbari* (Aix-Marseille University); *Illeen O. Kondo* (University of Notre Dame); *Sara Lowes* (Bocconi University); *Nour Meddahi* (Toulouse School of Economics); *Victor Murinde* (SOAS, University of London); *Ismael Mourifié* (University of Toronto); *Patrizio Piraino* (University of Cape Town);

- 2017 Organizer: Banque d'Algerie; Place: El-Djazair, Algeria; Ethiopia; date: June 29 – July 1, featured the Griliches lecture; Program Chair: *Nour Meddahi*, Toulouse School of Economics & *Kaddour Hadri*, Queen's University Belfast; Local organizing committee chair: *Banque d'Algerie*; Numbers: 120 participants, 98 (contributed) presentations, 26 contributed sessions; 194 submissions.
Keynote Speakers: *Philippe Aghion* (College de France and LSE); *Raouf Boucekine* (Aix-Marseille School of Economics); *Pierre-André Chiappori* (Columbia University) - Griliches lecture; *Drew Fudenberg* (MIT) - Presidential address; *Jean-Charles Rochet* (University of Zurich); *Bernard Salanié* (Columbia University); *Jean Tirole* (Toulouse School of Economics, Nobel Memorial Prize in Economics – 2004).
- 2016 Organizer: Department of Economics, University of Pretoria, South Africa; Place: Kruger National Park, South Africa; date: July 26-28; Program Chairs: *Victor Murinde*, University of Birmingham & *Steve Koch*, University of Pretoria; Local organizing committee chair: *René van Eyden* & *Steve Koch*, University of Pretoria; Numbers: 120 participants, 80 (contributed) presentations, 20 contributed sessions; 159 submissions.
Keynote Speakers: *Eddie Dekel* (Northwestern University and Tel Aviv University) - Presidential address; *Richard Blundell* (University College London and Institute for Fiscal Studies, London); *Stephen Turnovsky* (University of Washington and Victoria University of Wellington, NZ).
- 2014 Organizer: Ethiopian Economic Association (EEA); Place: Addis-Ababa, Ethiopia; date: July 16-19, featured the Marschak lecture; Program Chair: *Alemayehu Seyoum Taffesse*, EEA; Local organizing committee chair: *EEA*; Numbers: 120 participants, 106 (contributed) presentations, 33 contributed sessions; 194 submissions.
Keynote Speakers and panelists: *Manuel Arellano* (CEMFI); *Shiferaw Gormu* (Georgia State University); *Alemayehu Seyoum Taffesse* (IFPRI) & *Yaw Nyarko* (NYU) - Presidential address; *Christopher Udry* (Yale University) - Marschak Lecture; *Justin Yifu Lin* (National School of Development, Peking University).
Abbi Kedir (Sheffield University); *Roger Tsafack Nanfosso* (Universite de Dschang); *James Wakiaga* (UNDP); *Eugenia Kaitesi* (IPAR-Rwanda); *Hoseana Bohela Lunogelo* (ESRF); *John Omiti* (Kenya Institute for Public Policy Research and Analysis); *Abebe Shimeles* (AERC); *Bart Minten* (IFPRI); *Mekdim Dereje* (University of Bonn); *Mehari Hiluf* (IFPRI); *Fanaye Tadesse* (UNICEF); *Kalle Hirvonen* (IFPRI); *Guush Berhane* (IFPRI)

(b) Summer Schools

More information regarding past conferences can be found at:

<https://www.africaeconometricsociety.com/summer-schools>

2021 Africa Summer School in Econometrics; organized by Ecole Nationale Supérieure de Statistique et d'Économie Appliquée (ENSEA); Place: Abidjan, Côte d'Ivoire; date: May 26 - June 2.

Lecturers:

Matias Cattaneo (Princeton University), Topics: (a) Overview of causal inference and program evaluation (b) Regression discontinuity designs; *Firmin Doko Tchatoka (University of Adelaide)*, Topic: Macroeconometrics - Time Series; *Pascaline Dupas (Stanford University)*, Topic: Causal inference and policy evaluation for (quasi) experimental data; *Christian Gourieroux (CREST, University of Toronto)*, Topic: Noncausality and speculative bubbles; *Michael Jansson (UC, Berkeley)*, Topic: Recent advances in bootstrap methods;

2018 Summer School of Econometric Society; organized by Africa School of Economics; place: Cotonou, Benin; date: July 6-11.

Lecturers:

Simon Alder (University of North Carolina), Topic: Transport Infrastructure and Regional Development; *Renee Bowen (University of California San Diego)*, Topics in Trade and Development *Firmin Doko Tchatoka (University of Adelaide)*, Topics: (a) Instrumental variables and GMM inference in structural models, (b) Forecasting time series using filters and ARIMA models; *Ian Heffernan (African School of Economics)*, Topics in Economic Theory; *Illemin O. Kondo (University of Notre Dame)*, Topics in Trade and Development; *Ismael Mourifié (University of Toronto)*, Topic: Recent Advances in Treatment Effects and Policy Evaluations; *Pierre Nguimkeu (Georgia State University)*, Topics in Econometrics; *Roberto Sarkisian (Toulouse School of Economics)*, Topics in Economic Theory; *Leonard Wantchekon (Princeton University and African School of Economics)*, Introductory lecture; *Jean-Pierre Benoît (London Business School)*, Topic: The role of theory in understanding behavioural experiments.

2015 Africa Region Training Workshop of the Econometric Society; organized by University of Zambia; Bank of Zambia, & Zambia Institute for Policy Analysis and Research (ZIPAR), Lusaka; place: Lusaka, Zambia; date: July 22-24.

Lecturers:

Manuel Arellano (CEMFI, Madrid); *Christopher Udry (Yale University)*; *Yaw Nyarko (New York University)*; *Habiba Djebbari (Aix-Marseille University)*; *Kaddour Hadri (Queens University Belfast)*; *Victor Murinde (University of Birmingham)*.

(c) Online Training Workshops

More information regarding past conferences can be found at:

<https://www.africaeconometricsociety.com/summer-schools>

2023/06 Africa Training Workshop in Econometrics; organized by Dalia Ghanem (UC Davis) and Prosper Dovonon (Concordia University); Format: Online; date: June 12 - 14, 2023.

Lecturers:

Maximilian Auffhammer, University of California, Berkeley, Topics: Climate Economics
Desire Kedagni, University of North Carolina, Chapel Hill, Topics: Causal Inference.

Financial support:

Schools Committee: 1.5K, AfRSC: 1.5K.

Application and registration:

Number of applications: 127, number of acceptance: 127, number of registrations: 110,
number of waivers granted: 69, fees collected: $41 \times 100 = \$4,100$.

2023/12 Africa Training Workshop in Computational Macroeconomics; organized by Sophie Osootimehin (UQAM) and Prosper Dovonon (Concordia University); Format: Online; date: December 13 - 15, 2023.

Lecturers: *Jesus Fernandez-Villaverde, U. of Pennsylvania*, Topics: Solving dynamic equilibrium models
Pablo Winant, ESCP Business School, Topics: Essential numerical tools and perturbation analysis.

Financial support:

Schools Committee: 1.5K, AfRSC: 1.5K.

Application and registration:

Number of applications: 109, number of acceptance: 109, number of registrations: 94,
number of waivers granted: 49, fees collected: $45 \times 100 = \$4,500$. Charges, including 10% of surplus to the Central Office: \$3,878. Surplus transferred to the Africa Region accounts: \$622.

Table C.1: Past and Scheduled named lectures for the Africa Region

Year	Lecture	Lecturer
2017	Griliches	Pierre A. Chiapporin (Columbia University)
2019	Sargan	Elie Tamer (Harvard University)
2021	Marschak	Manuel Arellano (CEMFI, Madrid)
2022	Hotelling	Nobu Kiyotaki (Princeton University)
2024	Griliches	Ellen McGrattan (University of Minnesota)
2026	Marschak	-
2027	Sargan	-
2029	Hotelling	-

3.4 Appendix D: Members of Africa Regional Standing Committee

Standing Committee, 2023

Name (Affiliation)	Role	Email address
Yaw Nyarko (New York University)	Chair, ES council 2013-2026	yaw.nyarko@nyu.edu
Theophile Azomahou (AERC)	AFES 2023 Program Chair	Theophile.azomahou@aercafrica.org
Firmin Doko Tchatoka (U. Adelaide)	AFES 2024 Program coChair	firmin.dokotchatoka@adelaide.edu.au
Prosper Dovonon (Concordia University)	Secretary	prosper.dovonon@concordia.ca
Dalia Ghanem (UC Davis)	Elected Member 2023-2026	dghanem@ucdavis.edu
Steve Koch (University of Pretoria, SA)	Elected Member 2022-2025	steve.koch@up.ac.za
Romuald Meango (U. of Oxford)	AFES 2024 Program coChair	romuald.meango@economics.ox.ac.uk
Ismael Mourifie (University of Toronto)	Elected Member 2022-2025	ismael.mourifie@utoronto.ca
Victor Murinde (SOAS University of London)	Elected Member 2020-2023	v.murinde@soas.ac.uk
Sophie Osotimehin (UQAM, Montreal)	Elected Member 2020-2023	osotimehin.sophie@uqam.ca
Abderrahim Taamouti (U. of Liverpool)	Elected Member 2021-2024	Abderrahim.Taamouti@liverpool.ac.uk

Standing Committee, 2022

Name (Affiliation)	Role	Email address
Yaw Nyarko (New York University)	Chair, Elected 2019-2022	yaw.nyarko@nyu.edu
Prosper Dovonon (Concordia University)	Secretary	prosper.dovonon@concordia.ca

3.6 Appendix F: Young Economist Best Paper Award - Past recipients

2023 1st prize: **Nyemwererai Matshaka** (University of Pretoria); 2nd prize: **Alain Ndikumana** (ENSEA); 3rd prize: **Michel Armel Ndayikeza** (University of Burundi)

This competition took place at the 2023 Meeting organized by AERC. Titles: “Inequality in a Two-agent variety extension growth model”; “Does Chinese aid promote manufacturing industry in Africa?”; “Underemployment of college graduates: is doing anything better than doing nothing?”

Each of the three (3) winner has USD 500 sponsored by AERC. The 1st prize includes a fast-track submission route for a publication in Annals of Economics and Statistics. The prizes are sponsored by AERC and the Annals of Economics and Statistics.

2022 NA

2021 **Ramaele Moshoeshe** (Assistant Prof., National University of Lesotho)

The first prize competition was delivered at the 2021 Meeting organized by École Nationale Supérieure de Statistique et d'Économie Appliquée (ENSEA) - Abidjan, Côte d'Ivoire.

Sponsored by: The Annals of Economics and Statistics - <https://annals.ensae.fr/>.

Winner: **Ramaele Moshoeshe** (Assistant Prof., National University of Lesotho)

Title: Long Term Effects of Free Primary Education on Educational Achievement: Evidence from Lesotho, Field: Empirical Microeconomics.

Prize: The Annals of Economics and Statistics offered this paper a fast-track submission route for a publication in Annals of Economics and Statistics. Ramaele was also given the opportunity to spend one week research visit – all cost covered by the journal – at the CREST (Center for Research in Economics and Statistics), France. This gives him the possibility of interactions and collaborations in that research center.

3.7 Appendix G: History of the Africa Region of The Econometric Society

(Prepared by Lyn Hogan, May 2023)

At the August 2008 meeting of the Econometric Society in Milan, Italy, the first mention of incorporating Africa and the African Econometric Society (AES) into the Econometric Society was found in the Executive Committee (EC) minutes. President Torsten Persson presented the proposal of the AES to become the African region of the Econometric Society, which followed from a meeting in Singapore with Kaddour Hadri, Council member of the AES. EC members Stephen Morris and Rafaela Repullo had solicited the views of Richard Blundell, Anne Case, Angus Deaton, Yaw Nyarko, and Chris Udry. There was widespread support for helping the development of economics in Africa, but some concern about the broadness of AES. There were also important governance issues to be resolved. The EC decided to form a committee with Tim Besley (chair), Deaton, Nyarko, and Repullo to advise the Executive Committee on how to proceed. An officer of AES would be invited to discuss the proposal with the Executive Committee the following year at the Society's summer EC meeting.

At the August 2009 meeting of the EC in Barcelona, Spain, then-President of the AES, Kaddour Hadri, was invited to present the proposal to become the African region of the Econometric Society. Hadri presented a brief history of the AES, noting that it currently has more than 400 members and since 1996 organizes an annual conference in which high profile invited speakers participate, including many Fellows of the Econometric Society. However, the AES feels a bit isolated from the world economics community and would profit from an affiliation with the Econometric Society that would eventually lead to becoming the African region. Myerson thanked Hadri for his presentation, and said that the Society was very sympathetic to the proposal and would seriously consider it. The Executive Committee then discussed the AES' proposal. The positive report sent by Richard Blundell, who attended the 2009 AES meeting in Abuja, Nigeria, was also considered. The EC agreed (1) to put a link in the Society's website to the AES' website, (2) to treat AES as other Society regions, including the provision of \$10,000 per year for activities involving young economists, and (3) to ask the committee appointed in 2008 and chaired by Besley to make a proposal to be considered the following year by the Executive Committee and the Council.

At the 2010 August Shanghai, China World Congress at the meeting of the Econometric Society then President John H. Moore informed about the state of the proposal of the AES to become the African region of the Econometric Society, following his participation in its 2010 Annual Conference in Cairo, Egypt. He expressed support for the strategy agreed the previous year to treat the AES as other Society regions, including the provision of \$10,000 per year for activities involving young economists. He proposed to monitor its development in order to decide on the integration within the next five years, and the EC agreed.

At the first Executive Committee meeting held at the 2011 North American Winter Meeting taking place in January in Denver, Colorado, EVP Repullo reminded the Committee that the AES was in the process of becoming the Society's African region, and that it was being treated like the other regions in terms of grants for activities involving young economists. He suggested that an officer should attend the next AES's annual conference in July 2011 in Nairobi.

At the August 2011 EC Meeting in Oslo, Norway there is no mention of the AES or anything related to the Africa region becoming part of the Society.

At the January 2012 EC Meeting in Chicago, Illinois, Nyarko, then President of the African

Econometric Society (AES), joined the meeting during lunch to discuss the proposal of the AES to become the African region of the Econometric Society. Repullo gave some background of the initial discussion at the 2008 meeting of the Executive Committee and the presentation at the 2009 meeting. Nyarko reported on the recent activities of the AES, stating that his initial concerns upon being elected were that the AES presence was too heavily based in South Africa and that it was mainly devoted to econometrics. Over the past three years though, he noted that they have overcome these biases, with the AES growing and expanding into more fields, notably game theory. He outlined the governance of the AES, where the offices of President, Secretary, and Treasurer are elected by members for a 3-year term. There was a Council comprising these officers plus the Vice-President, the Past President, and two other elected members. Meeting venues were decided at the annual conferences held in July. He noted that affiliation with the Econometric Society would give greater recognition to research and help younger economists in Africa. His goal was to become more inclusive and to expand partnerships with other organizations in the region. Jean-Charles Rochet suggested that he make a formal proposal to be discussed by the EC at the next meeting in Malaga.

At the August 2012 Executive Committee Meeting in Malaga, Spain, then Society President Jean-Charles Rochet gave an update on the proposal of the African Econometric Society to become the African region of the Econometric Society. He supported the proposal subject to a transition period when differences in governance arrangements between the two organizations could be resolved, and proposed to appoint Richard Blundell to oversee the transitional arrangements. The EC agreed to accept the proposal of the African Econometric Society to become the African region of the Econometric Society by 2015, subject to satisfactory transitional arrangements, and to appoint Richard Blundell to liaise with the African Econometric Society in the transition.

At the January 2013 Executive Committee Meeting in San Diego, CA there was no mention in the minutes of this topic.

At the August 2013 EC Meeting, the Executive Vice-President of the Society reported that the African Econometric Society has voted on the new governance structure of the Econometric Society and formally became the African region of the Society. The 2014 meeting, and first African Meeting of the Econometric Society, was planned for Addis Ababa, Ethiopia.

At the August 2014 EC meeting in Toulouse, France, the Executive Committee decided to allow members of other regions with links to Africa to declare a secondary affiliation in Africa, for a limited time. This would allow them to vote and to be eligible on their Regional Standing Committee.

At the January and August 2015 EC meetings, there was no mention of the Africa region.

At the August 2016, Geneva, Switzerland EC meeting, Eddie Dekel reported that there was strong feedback from the Africa meeting for more assistance from the Society to find a way to link policy and research. Besley informed the EC on the regional initiatives of the International Economic Association, and suggested coordinating with the African Economic Research Consortium. The EC agreed to discuss the matter further in January 2017. Dekel, Besley and Fudenberg would hold conference calls in the meantime to discuss the issues.

At the January 2017 Chicago, IL EC meeting, under a new category breakout in the EC minutes, Dekel reported on the discussions of the committee on “Emerging Regions” which he appointed to explore activities for emerging regions and possible ways to coordinate with the IEA. Besley reported that the IEA initiative in Africa had stalled. Dekel noted that discussion of regional activities is often scheduled at the end of Executive Committee meetings and leaves little time for a thorough discussion and consensus on how to move forward. He noted that

emerging regions continued to be an area where the Society could take leadership. The EC agreed to appoint an ad hoc committee to consider the various regional issues including emerging regions, to be discussed at the August 2017 EC meeting.

At the August 2017 EC meeting in Lisbon, Portugal there was no mention of the Africa region in minutes.

At the January 2018 EC meeting in Philadelphia, PA there was no mention of the Africa region in the EC minutes.

At the August 2018 EC meeting in Cologne, Germany, President Tim Besley introduced the idea of exploring fundraising for young economists to attend meetings in the Africa region beyond the current \$10,000 annual grant from the Society. He proposed providing free membership to graduate students and young Ph.Ds. through fundraising in a way that would not cost the Society any money. EC member Penny Goldberg suggested that any graduate students or young Ph.Ds. who submit a paper to the meetings could receive a free three-year membership. Besley noted this approach might be too expensive and that his current proposal was to raise funds for those young economists whose papers have already been accepted. Besley agreed to present a detailed proposal to the EC at the Winter 2019 meeting in Atlanta, Georgia. Besley brought up the African Development Bank and the Africa Economics Network and noted that he is very sympathetic to the African region and thinks there is good fundraising potential to support young African scholars and Society programs in the region.

Following Besley's presentation, in 2019 and 2020, Besley, then President Stephen Morris and the following year's President Penny Goldberg, launched fundraising efforts targeted to providing free memberships and travel grants to young African scholars, thus creating the Africa Fund for Young Scholars campaign.

At the January 2020 San Diego, CA EC meeting, EVP Enrique Sentana reported on the issue of allowing double membership with Africa as a second region for members residing outside of Africa but with strong ties to Africa—something not allowed for any other region. The EC originally approved this double membership at its EC meeting in 2016 but did not make it permanent. The question was raised whether or not to now make it permanent or discontinue allowing double membership with Africa. The EC decided to extend the double membership for 5 years and then revisit the issue. The five-year provision discussed above was added to the Society's Rules and Procedures, giving the end of 2024 as the explicit end date.

At the August 2020 EC meeting scheduled for Milan, Italy but taking place virtually, Sentana noted that at the previous Council meeting, it was requested the EC come back to the Council with a reworded proposal to ensure that only those with a genuine interest in the region would be granted double membership. Sentana noted that the new language was essentially the same, except that those interested in declaring a second affiliation to Africa would have to write to the Central office of the Society and provide arguments as to why they should be entitled to hold a double membership. Examples include regular assistance to the annual regional meeting or a genuine double affiliation at an academic institution in Africa. Based on the arguments presented, the Central office would take a decision, possibly after discussing the matter with the African Regional Standing Committee.

At the August 2021 EC meeting, also virtual, Sentana reported that close to \$30,000 had been collected through the Africa campaign. In this respect, he also mentioned that the Society had tried to collect additional funds for the same objective from French taxpayers through the Laffont Foundation at the Toulouse School of Economics (TSE), but with little success. He said that at its forthcoming meeting, the African RSC would approve the rule for subsidizing membership in Africa: three years of free membership for young scholars who reside in Africa

and attended either the 2018 or 2019 regional meetings.

At the January 2022 EC meeting, also virtual, Sentana reviewed the regional membership numbers, noting that Africa, after losing members in 2019, climbed back up to 77 members at the end of 2020. In 2021, the African region grew to a total of 138 members, including 61 new African Scholars recruited thanks to the decision by the EC and the African Regional Standing Committee (RSC) to use part of the African Fund to provide free 3-year memberships for young scholars in the region. Sentana also noted that 32 members from other regions had explicitly declared secondary affiliations in Africa – the only one in which this could be done - bringing the total number of mid-2021 African members to 170. However, according to the current Rules and Procedures (R&P), this number remained below the 3% threshold required to have a seat in the Council. Goldberg introduced the question of whether every region should have a Council seat regardless of the region’s membership numbers relative to the overall Society membership. She reminded the EC that the R&P currently state that a region must hold a minimum of 3% of the membership to qualify for at least one Council seat. As explained in the Secretary’s report, Africa did not yet qualify, and Latin America and Australasia risked falling below the threshold in the next few years. Goldberg also noted that the guarantee of at least one seat would allow a more focused membership drive in Africa, although at the same time it would weaken the incentives to reach out to build membership. Still, she proposed that a minimum of one Council seat be allocated to each region and that the remaining seats be allocated according to the D’Hondt method outlined in the R&P. The EC agreed with Goldberg’s proposal but without increasing the current size of the Council.

At the August 2022 EC meeting in Milan, Italy, Sentana focused on individual membership numbers broken down by region, explaining that Africa had experienced substantial growth primarily due to the waivers provided by the Young African Scholars program.
