INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
Econometric Society, Inc.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Econometric Society, Inc. (the "Society"), which comprise the statements of financial position as of December 31, 2023 and 2022, and the related statements of activities and changes in net assets, functional expenses, and cash flows for each of the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Econometric Society, Inc. as of December 31, 2023 and 2022, and the changes in its net assets and its cash flows for each of the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Society and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Society's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Society's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Society's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedules of revenues without donor restrictions and other support and revenues with donor restrictions on pages 14 and 15 are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

1. Nature of operations

The Econometric Society was founded in 1930 as an international society for the advancement of economic theory in its relation to statistics and mathematics. Its major activities are maintaining and expanding the membership in the Society; the publication of three scholarly journals, *Econometric*, *Quantitative Economics* and *Theoretical Economics*; the publication of a monograph series; the organization of scientific meetings in six regions of the world (including a World Congress every five years); and conducting elections for Fellow of The Econometric Society. During 2013 The Econometric Society elected to transfer all operations, rights and obligations held as of June 30, 2013 to Econometric Society, Inc. (the "Society") which has been formed as a corporation pursuant to the laws of the State of Delaware on December 27, 2012; the commencement of operations began July 1, 2013.

2. Summary of significant accounting policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") as applicable to not-for-profit organizations.

Net Assets

The net assets of the Society and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and are not subject to donor restriction.

Net Assets With Donor Restrictions – Net assets for which the use has been restricted by donors for specific purposes and/or the passage of time. The Society reports contributions as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as "net assets released from restrictions."

Cash and Cash Equivalents

Cash and cash equivalents include cash in bank accounts and highly liquid investments held in money market funds with original maturities of three months or less.

Concentration of Credit Risk

All of the Society's cash and cash equivalents are held at financial institutions that management believes to be of high credit quality. The Society's cash and cash equivalent accounts exceed federally insured limits at times. The Society has not experienced any losses on cash and cash equivalents to date.

Subsequent Events

Management evaluated subsequent events that occurred through June 25, 2024, the date on which the financial statements were available to be issued and no events occurred that required disclosure or adjustment to the financial statements.

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

2. Summary of significant accounting policies (continued)

Investments

Investments are recorded at fair value as of year-end. In accordance with U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The Society values investments in securities that are freely tradable and are listed on a national securities exchange at their last sales price as of the last business day of the year.

In determining fair value, the Society uses various valuation approaches. The Society is subject to the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, which establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Society. Unobservable inputs reflect the Society's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on observable inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Society has the ability to access at the reporting date.

Level 2 - Valuations based on quoted prices of similar instruments in active markets or quoted prices of identical or similar instruments in markets that are not active or for which all significant inputs are observable, either directly or indirectly at the reporting date.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement at the reporting date.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy.

In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

2. Summary of significant accounting policies (continued)

Receivables

Receivables are stated at the original invoice amounts, net of any allowance for expected credit losses, and due within one year. If an invoice amount has been deemed permanently uncollectible, such amount is written off against the allowance. On a periodic basis, the Society evaluates its receivables and determines if an allowance for expected credit losses is necessary. The allowance is based on historical experience and management's evaluation of outstanding receivables. Based on past collections, no allowance is considered necessary.

Publication Inventory

Inventories are stated at the lower of cost or net realizable value. Net realizable value is estimated as selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.

Property, Equipment and Website

Property and equipment are stated at cost and depreciated using the straight-line method over the estimated useful lives of three years. Expenditures for major additions and improvements are capitalized. Maintenance and repairs are charged to operations as incurred. Upon the sale or retirement of property and equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations.

Website costs consists of capitalized costs associated with the redesign of the Society's website and enhancements to the member database. These costs are being amortized over three years using the straight-line method. Amortization expense was \$28,655 for the year ending December 31, 2023.

In-kind Contributions

The Society, from time-to-time receives various forms of gifts-in-kind, which are contributions of non-financial assets, including office space and editorial services. Contributions of services are recognized by the Society as both revenues and expense if the services (i) create or enhance assets, and (ii) require specialized skills and are provided by individuals possessing those skills, and (iii) would typically need to be purchased if not donated.

In-kind contribution (editorial) represents the value of contributed honorarium for services performed at the prevailing market rate in the principal marketplace for these services. Additionally, the Society recorded in-kind contribution (rent) which represents the fair value of office space contributed to the Society by Yale University.

Revenue Recognition

Membership income and institutional publishing are recorded as revenues as access to content is provided over the membership period, which is either one or three years, and membership must be renewed at the end of the membership period. The performance obligation is satisfied throughout the membership period upon payment. There is no remaining performance obligation required on the Society upon the member period termination date. Membership income and institutional publishing collected in advance of the membership period are recorded as deferred revenue. Regional funds and world congress income is recorded as collected. Royalties are recognized when received. Grants and contributions, which include unconditional promises to donate assets, services, or reductions of liabilities, are recognized as revenues and are measured at fair value on the date received.

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

2. Summary of significant accounting policies (continued)

Foreign Currency Translations

Assets and liabilities held by foreign agents are recorded at the exchange rate in effect at the end of the year. Transactions denominated in foreign currencies are translated at the approximate rates of exchange in effect at the time of the transactions. Translation gains and losses resulting from exchange rate fluctuations are included in current year investment gains (losses).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation of Expenses

The cost of providing various programs and other activities has been summarized on a functional basis in the statements of activities and changes in net assets; accordingly, certain costs have been allocated by management among the programs and supporting services benefited. The statements of functional expenses present expenses by functional and natural classification. Accordingly, direct costs have been functionalized within the program and supporting services based on the nature of the expense. Indirect costs have been allocated on the basis of time and effort by employees. The Society incurs no material fundraising costs.

Recently adopted accounting pronouncements

On January 1, 2023, the Society adopted Accounting Standards Codification (“ASC”) 326 Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, as amended, which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology. The measurement of expected credit losses under the CECL methodology is applicable to financial assets measured at amortized cost. The estimate of expected credit losses will require entities to incorporate considerations of historical information, current information and reasonable and supportable forecasts. This guidance also expands the disclosure requirements to enable users of financial statements to understand the entity’s assumptions, models and methods for estimating expected credit losses. Prior U.S. GAAP contained an incurred loss methodology for recognizing credit losses and delayed the recognition until it was probable that a loss had been incurred. The adoption of this new guidance did not have a material effect on the financial statements.

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

3. Tax-exempt status

The Society is a not-for-profit organization as described in Section 501c(3) of the Internal Revenue Code and is exempt from federal income taxes pursuant to Section 501(a) of the Internal Revenue Code. Certain revenues that are unrelated to the Society's exempt purpose are subject to unrelated business income taxes.

In accordance with U.S.GAAP, the Society is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. It is management's estimation that there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure to the financial statements at December 31, 2023 and 2022.

4. Deferred revenue

The following table provides information about significant changes in deferred revenue from dues and subscriptions consisting of the following:

	<u>December 31,</u>	
	<u>2023</u>	<u>2022</u>
Deferred revenue, beginning of year	\$ 510,767	\$ 430,102
Revenue recognized that was included in deferred revenue at the beginning of the year	(348,353)	(303,386)
Increase in deferred revenue due to cash received during the year	<u>461,072</u>	<u>384,051</u>
Deferred revenue, end of year	<u>\$ 623,486</u>	<u>\$ 510,767</u>

5. Fair value measurements

Investments consist primarily of mutual funds of U.S. and international equity and debt securities. The Society's investments recorded at fair value have been categorized based upon a fair value hierarchy in accordance with U.S. GAAP. See Note 2 for a discussion of the Society's policies.

The following table presents information about the Society's investments measured at fair value as of December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments:				
U.S. Equities	\$ 1,664,991	\$ -	\$ -	\$ 1,664,991
International Equities	2,122,448	-	-	2,122,448
Debt Funds	<u>1,885,456</u>	<u>-</u>	<u>-</u>	<u>1,885,456</u>
	<u>\$ 5,672,895</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,672,895</u>

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

5. Fair value measurements (continued)

The following table presents information about the Society's investments measured at fair value as of December 31, 2022:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments:				
U.S. Equities	\$ 1,334,059	\$ -	\$ -	\$ 1,334,059
International Equities	1,686,617	-	-	1,686,617
Debt Funds	<u>1,479,924</u>	<u>-</u>	<u>-</u>	<u>1,479,924</u>
	<u>\$ 4,500,600</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,500,600</u>

6. Net assets with donor restrictions

Net assets with donor restrictions have been established as a result of contributions to the Society which have donor-imposed restrictions on their use. As of December 31, 2023 and 2022, net assets with donor restrictions of \$3,575 and \$14,847, respectively, were restricted for the Marschak Fund. The Marschak Fund is to be used at the discretion of the Executive Committee for the purpose of supporting a Jacob Marschak lecture, the location of which rotates among the regional meetings held outside North America and Europe. Amounts released from donor restrictions represent the Society's satisfaction of the donor's wishes. During 2023, \$11,809 in restricted funds were released, no funds were released during 2022.

7. Contingencies

Litigation

The Society is subject to potential legal proceedings and claims which may arise in the ordinary course of its activities. In the opinion of management, the amount of ultimate liability with respect to any such matters does not have a material adverse effect on its change in net assets, cash flows, or financial position.

8. Liquidity and availability of resources

The following reflects the Society's financial assets as of the statement of financial position date, reduced by amounts not available for general use within one year because of donor-imposed restrictions.

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 and 2022

8. Liquidity and availability of resources (continued)

The Society's financial assets available for general use within one year of the statements of financial position date for general expenditures are as follows:

	<u>2023</u>	<u>2022</u>
Cash and cash equivalents	\$ 634,224	\$ 613,127
Investments	5,672,895	4,500,600
Accounts receivable	<u>194,186</u>	<u>161,203</u>
Total financial assets available within one year	<u>6,501,305</u>	<u>5,274,930</u>
Less:		
Amounts unavailable for general expenditures within one year due to restrictions by donors with purpose restrictions	<u>(3,575)</u>	<u>(14,847)</u>
Total financial assets available to meet cash needs for general expenditures within one year	<u>\$ 6,497,730</u>	<u>\$ 5,260,083</u>

Liquidity policy:

The Society's liquidity policy is to ensure that the Society operates with an adequate level of institutional liquidity to minimize risk associated with temporary, unforeseen liquidity needs. Liquid funds that are without donor restriction will be used to satisfy the minimum liquidity target.
